WELCOME FROM BOUCHARD LIVESTOCK

Welcome to the 4th Annual Southwest Showcase Simmental Bull Sale. The Southwest Showcase sale has rapidly developed a reputation as a source of quality commercial and purebred herdsires. All of the respective programs represented utilize a strong AI program as well as very functional walking herdbulls. The bulls consigned exemplify meat, muscle and performance. These calves are developed in ranching country and calving ease is never far from the thoughts of these proven programs. A number of these calves are slightly younger than some sales but it is always very interesting that we seldom lose a calf on fertility. The programs represented have stood the test of time so you can source your bull needs with confidence.

Give the consignors a call to discuss the bulls on offer. There will be a cross section of individuals to fill your herdbull needs. I am very familiar with the bulls in this sale and available at the sale barn Saturday, Sunday and Monday if I can be of assistance. Hopefully, you can join us on Monday at Heartland in Swift Current. Should you be unable to attend, it would be our honor to represent your interests in our usual confidential and professional manner.

MEAL

Please join us for a great lunch at noon.

SIGHT UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program and recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

100% GUARANTEE

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

HEALTH AND FERTILITY

All bulls will have a scrotal measurement and a vet examination done prior to the sale. All bulls over 12 months of age will also be semen tested; any bulls under 12 months of age will return to the seller's farm to be tested after the sale. These bulls will be delivered once a semen test has been passed. All bulls have been treated with Ivomec and have current vaccinations. Contact the breeder for specific herd health programs.

IN-HERD USE SEMEN RIGHTS

The Southwest Showcase consignors reserve the right to collect semen on any bull in the sale for their in-herd use only. Any questions please contact the consignors.

BULL DEVELOPMENT & DELIVERY

The Southwest Showcase consignors will keep bulls free of charge until May 1st, 2013. Buyers need to insure the bulls while being cared for by the consignors.

Option A: Bulls can be picked up at Heartland Livestock sale day and a \$50 discount will be deducted from the sale price

Option B: At the buyer's option and risk, the bulls can be returned to the consignor's farm and picked up anytime at the buyer's convenience.

Option C: Please make arrangements with the consignor if trucking is required.

EPD EXPLANATION

EPDs are "Expected Progeny Differences". They are a useful tool in selection. EPDs incorporate the individual animal with its averaged ancestry performance. EPDs do not compare across cattle breeds, they are individually based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull's progeny. Use them for guidance in the direction you want your herd to go.

HERTER SIMMENTALS

Welcome to the 4th Annual Southwest Showcase Simmental Bull Sale. We would like to start off by saying thank you to last year's bidders and especially our buyers.

We strive to produce moderate, functional, easy-fleshing cattle that excel at calving ease and press the scales down come weaning. Our program is based on strong cow families and we utilize top walking herd sires, AI and embryo transfer to improve consistency and quality of our cow herd.

All the bulls in the sale have been Igenity profiled, polled and color coat tested. This information as soon as it becomes available will be posted on our "Sales Page" of our website www.hertersimmentals.com

If you have any questions feel free to give us a call and we encourage you to come by and see the dams and extended family to these bulls.

626Z is a smooth made, low bwt. 83 lbs., homozygous black son of the calving ease specialist In Dew Time. He is clean made with lots of middle, big testicles and is very correct. In Dew Time is known for his saleable bulls and functional, highly maternal females. 626Z's dam Beauty 7N is moderate, stylish and complete. She is without a doubt our most consistent producer. A full brother to Carbon Copy will help anchor our program and have sold 3 brothers (2 full) to Bircham Ranch of Piapot, SK. Thank You to Wayne, Lee and Jordan for your purchase of Beauty 7N genetics. 626Z has calving ease, smoothness, good muscle shape and correctness backed by a highly consistent and predictable cow family. His daughters should be outstanding! Visit our website for additional photos on siblings to 626Z. **Homo Polled - Homo Black** EPD's Top%: CE 10%, BW 10%, MCE 10%

HRTR WRANGLER 624Z

APPLIED HRTR 624Z POLLED 09 MAR 12

A sale feature for sure! This soggy Kosmo's Pride son is out of a fancy, Iron Man heifer going back to our leading lady Beauty 7N. This guy boasts an 82 lbs. birth weight, good growth, above average muscle and volume, huge testicles, and a good hair coat. As with all the other Kosmo's Pride sons you can expect calving ease, moderate birth weights, easy fleshing and longevity all on a disciplined mature frame score. Our Kosmo's daughters in production weaned some of our biggest calves and did it while maintaining their body condition. These will be our last natural Kosmo's Pride sons as he is now working the pastures of Town View Farms. Thank you to the Girodat's.

TSZ LINCOLN 645Z

APPLIED HTW 645Z POLLED 28 MAR 12

645Z is another real good Kosmo's Pride son that is a 7/8 brother to 624Z. 645Z's dam is a feminine, beautifully made young cow with good feet and legs and a perfect udder. She hails from the same cow family as our herd sire TSZ Apollo 508Y who was used heavily in our program last year. As typical with our other Kosmo's sons you can expect calving ease, solid growth, good hair, longevity and great temperaments. This guy should cover a lot of ground and would be a great duo to 624Z if you're in need of multiple bull power and want to maintain consistency.

613Z is a stylish, deep bodied, wide topped, performance oriented, Kosmo's Pride son out of our foundation Black Irish Kansas cow TSZ Made Sweet 7P. Kosmo's Pride sons have been our most popular bulls to date. They encompass calving ease, good growth, sound structure, good temperaments, longevity and all on a disciplined mature frame score. Simply put these bulls were made for short grass country. 613Z gives you solid performance with above average calving and birth weight EPD's. Put this guy on your British based cows and reap the rewards. **Homozygous Polled - Heterozygous Black** EPD's Top%: CE 2%, BW 2%, MWW 15%

642Z is a blaze faced Outlaw son that has the tools to make a top notch herd bull consisting of length, volume, sound structure, good hair, excellent testicle development and style. His momma is a really good clean made Black Joker female with a family history of influential sires such as Goldmine, Bodybuilder and Righttime. She is a full sister in blood to our flush cow TSZ After Glow 317W (the dam to TSZ Apollo 508Y our Jr. Herdsire). We feel 642Z will have a promising future, sire a great set of steer calves and tremendous replacement females. **Homozygous Polled - Heterozygous Black** EPD's Top%: CE 10%, BW 15%, MCE 35%

X-T SIMMENTALS

DON LUNDBERG, RYAN LUNDBERG & FAMILY

First and foremost we would like to thank all the bidders and buyers from our previous sales, if it wasn't for you we wouldn't be here. Many of you have been here and active at every sale and for that we are very grateful.

We raise our cattle here in the cypress hills much as our family has for the last 105 years. There is no creep feeding, grazing alfalfa, and no magic feed rations. We calve our cows in April and May and wean in October. The bulls are hand fed grain and hay where we strive to have them gain 100 lbs per month. Our goal is to raise our cattle using the same management style as our bull customers so they will work well for you.

Because of the age of the bulls at sale time, they will not be semen tested but they will be palpated and measured. We would like to take them back home until they are 13 months of age to semen test. Once they are tested, we will deliver them to you within the three prairie provinces at our cost. This has worked very well in the past; in the last 3 years, we have not had a bull fail his semen test so we are confident in this program. These bulls are fertile – we have had bulls used naturally breeding cows at 12 months of age.

If you have any questions about the bulls, feel free to call Don or Ryan anytime.

BPG777292

LW 50Z

POLLED

09 APR 12

This solid black calf is a tank from the shoulders back, but has a real trim shoulder, small head, and moderate bone. His solid black dam is an absolute tank, nearly as wide as she is tall; the commercial ranchers love her kind. We believe this will be a bull that you can use in your heifer pen.

This heterozygous black calf will work very well on both black or red cows. He's got that nice white money stripe that so many people are looking for in today's commercial market. The RED LIGHT cows are well known to be very good producing cows with high milk EPDs; this is reinforced by this bull's performance – look at his 205 day weight!

We sold a full brother to this bull through the sale last year to Mike Bocek. 87Z is a very attractive calf with a nice front end and moderate bone. 87Z was very sick for a month after weaning and it really affected his performance. The good news is that it didn't affect his genetics at all. The dam, 89S, is a cow you would really admire if you saw her; she is a real producer! Out of her last 4 calves, 2 heifers sold through the Agribition Simmental sale and two bulls through this bull sale. We believe 87Z will be a calving ease bull.

2Z is a deep cherry red calf out of two solid black parents. If you have any off colored cows, this bull should make their progeny darker red and solid. 2Z is a full month older than the rest of our bulls and what a difference that makes on maturity and muscle development. With his thick top, heavy quarter, and excellent stifle muscle, we expect this calf to sire real performance cattle.

BOUNDARY RANCH

DARBY & SARAH DELORME & FAMILY

Welcome to the 4th Annual Southwest Showcase Bull Sale. We are honored to be a part of this sale, and to be selling bulls with this group of reputable breeders.

We strive for a balance of calving ease and performance when breeding our cows and think we've really hit the nail on the head with this group of bulls. We have more black bulls on offer this year and many of them are highly related, providing you with options if you are looking for more than one bull and would like to have some uniformity in your calf crop. Although we have less red bulls, the quality still runs deep and we believe there are bulls in our pen that have the potential to meet everyone's needs.

Many of the bulls have been Polled and Color tested, though not all the results were in by cataloging time, so please feel free to call for more results. To view scrotals, pictures of the bulls, dams, sires, relatives, and more, please visit our website at www.boundaryranch.ca. Give us a call or stop by anytime and we'll be happy to show you around the bull pen and our cow herd.

Thank you to Bouchard Livestock for the excellent job they do with the sales management. A big thank you to all those who have supported our program in the past. We look forward to seeing you all sale day!

Here are two sons of the Nikki cow we purchased as a bred at the Agribition Sale in 2011 from Sunny Valley, where she was the second high selling bred for \$15,000. Nikki was the Supreme Champion Female at the Prince Albert Summer Fair as a bred and she's turned into a hell of a cow; broody, deep-bodied, with nice small teats and lots of milk.

55Z & 56Z are similar in type, and both share the same depth of rib and good hair, however, 55Z has a bit more performance while 56Z is a little more moderate and smoother made. With "Red Ace" and "Odin" in their pedigree, these bulls should have calves that come easy but have above average performance.

BOUN103Z

POLLED

31 JAN 12

Heifer bull supreme! This guy looks good on paper and even better in person. 103Z combines a low 75 lbs BW with great performance, awesome phenotype, and good hair. We expect his mother to be one of the great ones; she's fancy, with a big hip, nice tight udder, tons of hair, and a sweetheart head. Her maternal sister had the high selling black bull at this sale last year as a 2 year old, going to Deeg Simmentals. We really like the Odin calves – they come early and have low birth weights, but also have good performance. 103Z himself had a gestation of only 276 days! His EPDs rank in the top 2%, 10%, 20%, & 40% respectively for CE, BW, YW, & WW - what an amazing spread. 103Z was the Champion Bull Calf at the Swift Current Pen Show against some pretty stiff competition. This bull has unlimited potential.

BOUN 72Z

POLLED

24 JAN 12

Well, good old "Storm" (405P) has done it again; she always has a calf at the top our pen and here's this year's model – Upgrade 72Z. He is remarkably long, wide, and thick, with a massive hip, good depth and he's still so very stylish and clean made. He moves freely and has that striking blazed face. His dam can literally be bred to anything and end up with a smokin' calf that almost always ends up in the show pen. 72Z had the great honor of being named "Cattlemen's Choice Bull" at the MHPS in December. He boasts the highest indexes for WW, ADG & YW, ADG, WPDA and his performance EPDs are in the top 4% for WW, and 2% for YW. You couldn't ask for a better disposition. We love him plain and simple and we're sure you will too.

BOUNDARY 2TEMPTING 188Z

PG766287

BOUN188Z

POLLED

02 MAR 12

188Z is the youngest calf we have on offer, but still one of the most impressive. His dam is a great "Gunner" sired cow that was the high selling heifer calf at the Kimlake Dispersal. We liked her so much, we showed her as a calf. She has lots of milk, and a great profile. 188Z displays his Dam's exceptional depth of body and smoothness throughout to a T. The Tumbler cow family was one of the very best at Kimlake and they are really working here as well. They are also probably the strongest cow family in udder quality that we possess. 188Z is sired by our own red / non-diluter 2Tempting bull, a phenomenal "Temptation" son of our Abricot 356N cow. 2Tempting's calves have great depth of body and good performance. 188Z really presses down the scales but is moderate in size, and has been one of Darby's favorites from the start. We feel this bull has a lot to offer and is probably a non-diluter.

Meat Wagon! 38Z has extra width, depth, a massive hip, and a clean front-end. His dam is a balanced and sound made female with a nice udder. She is a maternal sister to our great producer, Reggie 110R. Red Bull sired the most consistent set of heifers we've had so far and they've developed into a nice set of 2 yr olds. 38Z had the 2nd highest Index for YW and ADG of the red bulls, but also had a low 84 lbs BW. With his pedigree, phenotype, and numbers, this bull should make great steers and replacements.

Dam: Virginia Ms Spice 117W

CROCUS SIMMENTALS

TIM, KATHY, LANE & KALE SCHERGER

Welcome to the fourth annual Showcase Bull Sale. We would like to thank everyone who have helped make this sale such a success over the past few years, especially all our bidders and buyers.

The beef industry continues to experience an incredible amount of optimism and excitement. Now, more than ever, quality herd bulls continue to bring high return on investment. Using these top end herd sires not only pays off at the auction mart but also in long term longevity and quality of your cowherd.

We are very excited about the bulls we have to offer. Deep sided, wide topped, easy keeping bulls that are structurally sound with great hair coats and quiet dispositions. They are backed by industry leading AI and natural sires, along with a cowherd that we are very proud of.

Please feel free to contact us about any questions you have on our offering or if you would like to view the bulls before the sale. We look forward to discussing our program with you and seeing you sale day.

This is a tremendous calf that has impressed us all year long. He is a bull that will catch your eye when you first enter the pen and you'll keep coming back to him. Dark red with tons of muscle and mass, yet smooth shouldered and very clean up front. This is the first year Red Iron sons will be available in Canada and this is one that we are very excited about. It's not too often that you find that outcross herdsire prospect that has all the credentials to go along with it, so take advantage of the opportunity.

If cow families are a high priority for you when looking for a herd bull then have a look here. His mother is tremendous producer that has put sons in this sale for the third year in a row. His grandmother, the 16P cow is one that we have really based our red program around. This maternal strength on the bottom side of the pedigree is no surprise with names like Red Label, Quorum and Chief Red Bear all showing up. A maternal brother sold in last year's sale to Owen Schmitz who was our high seller. This bull is very stout made with lots of middle, a good full hip and a great haircoat.

DEAN, CAROLINE, AMANDA & RAEANN NEITZ

Welcome to our 4th Southwest Showcase Bull Sale. We would like to express our appreciation to all buyers and bidders of our bulls, past and present.

We have worked to breed hardy trouble free cattle and believe very strongly in building around cow families that have proven they are superior.

The bulls on offer are the result of over 40 years of breeding and were selected from over 140 born in 2012. We present them the way we would like to buy them - not overfed, no feet trimmed, semen tested and ready to breed cows. We stand behind our bulls, so if any problems arise please do not hesitate to contact us.

We welcome your call. The bulls are available at the farm for viewing at any time.

One of the thickest made and deepest bodied bulls you will find. He has been singled out and admired by everyone who has been in the bull pen. Moderate framed, awesome hair coat & disposition and large testicles. With an 88 lb. birth weight he may work on a group of heifers.

His easy fleshing first calf dam is an impressive cow with nice udder and comes from a cow family that consistently pumps out this type of progeny. His Gand Dam is also the dam of the \$10,000 EDN Spud at OK Farms in Red Deer, sons also sold to Kevin & Wendy Langer and Belle Plaine Colony. She is pictured at 4 years of age, she is now 10, but her udder has not changed. She recently gave birth to her 9th calf, each and every one has been conceived on the first A.I. service.

Here is a long spined, easy going, prospect that moves out effortlessly on big correct feet. His is a sharp headed, clean fronted bull with a nice tight sheath. His nice uddered, big volume dam combines the 29G and 68D cow families. You will want the daughters for herd replacements. Homozygous polled

15Z is a large framed dark red Warner son with nice hair coat, large testicles and black hooves. With Full Figures & Big Sky in his pedigree he should be strong in maternal traits. His dam was Amanda's 4-H heifer and is pictured at 11 years of age with 15Z at her side.

Here is one of my favorite red bulls. Good length, natural muscling and spring of rib. A really sound footed calf with a long easy stride. Once again really good hair, temperament and testicles. EPD's in the top 15% of the breed for CE, 5% for Mat. CE and 4% for scrotal.

His good milking first calf dam did a nice job on him, maintained her flesh and bred right back. 5R, his Grand Dam has 3 daughters retained and a son at Diamond M Simmentals. Homozygous polled

The only EDN Vico 40U son on offer. A full brother is working at Wilson Ranch. Vico calves are born easily, very vigorous at birth, grow well have nice hair coats and quiet dispositions. EDN Vico 40U scored 9 out of 10 for disposition on his Igenty test. Dam is a smaller framed, big bodied Nugget daughter with a really nice udder. The Grand Dam EDN May 55M is the dam of EDN Sprout 48S, a bull used at EDN.

Here is an end of March 1/4 Fleckveih blaze faced bull we are proud to offer. A long, low set, clean headed and tight sheathed calf with a different pedigree for many breeders. His EPD's are in the top 10% of the breed for weaning, 15% for yearling, 35% maternal CE, 10% for MWT and top 25% for milk. Don't overlook him because of his age. I wouldn't mind a herd of cows that look and produce just like 223Z's dam. Last year her bull calf sold to Donnie Zahn.

A mid-March calf that is similar to 166Z. Russian progeny have good early growth rates but moderate mature size. They are medium boned with a high muscle to bone ratio. You may want to run several Russian sons together for a uniform calf crop and to keep the frame size of your replacement heifers in check. 2R is one of those trouble free cows that quietly produces a top calf every year. Her only daughter has been retained. Sons have gone to Rick Loeppky and Rod Feil. One son is a current Herd Sire at EDN. Homozygous polled & Homozygous black

SALE TERMS & CONDITIONS

The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. Bouchard Livestock Ltd reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, Bouchard Livestock Ltd reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any any cattle will be released. The owners, Bouchard Livestock Ltd. and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

BID - Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

SHIPPING - Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

GUARANTEE - All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Bouchard Livestock Ltd assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

BOUCHARD LIVESTOCK LTD IS AGENT ONLY - It is clearly understood that Bouchard Livestock Ltd acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. Bouchard Livestock Ltd does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. Bouchard Livestock Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.

WIN A \$2,000 SALE CREDIT

Purchase a bull from any current Saskatchewan member and the registration papers are transferred, your name is entered to win a chance for a \$2,000 sale credit! The draw will be made at the SSA's Annual General Meeting in July and the lucky winner will have one year to use the credit at any public auction or private sale on bulls or females purchased from any current SSA member.
