# WELCOME FROM BOUCHARD LIVESTOCK

Welcome to the Annual Southwest Showcase Bull Sale. The Southwest Showcase has quickly risen to the top of the list when it comes to a venue to source top end purebred and commercial herdbulls. Every year this group of producers present to you a great group of yearling bulls suitable in terms of genetics and condition to go out in your respective breeding pastures. Again for 2014 they have brought you bulls from the heart of their cow-herd and sired by either their proven walking herdbulls or AI sires in the top end of the Simmental breed. Whether your program is commercial or purebred you will find individuals to suit your performance, calving ease and maternal needs. I strongly urge you to call the proven producers and discuss your bull needs so they can give you as much pertinent information as possible.

The Bouchard Livestock staff will be around the sale barn at Heartland in Swift Current and available to assist. Hope to visit with you on Monday, March 31 in Swift Current. If for any reason you cannot be in attendance it will be our pleasure to act in your interests in the most professional manner.

- Brian Bouchard

Ashley Anderson ASA President

### SALE HEADQUARTERS

Holiday Inn Express 1.877.654.0228

### INSURANCE

Blythman Agencies Ltd 306.662.2604

### MEAL

Please join us for a great lunch at noon.

### SIGHT UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program and recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

### 100% GUARANTEE

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

### HEALTH AND FERTILITY

All bulls will have a scrotal measurement and a vet examination done prior to the sale. All bulls over 12 months of age will also be semen tested; any bulls under 12 months of age will return to the seller's farm to be tested after the sale. These bulls will be delivered once a semen test has been passed. All bulls have been treated with Ivomec and have current vaccinations. Contact the breeder for specific herd health programs.

### IN-HERD USE SEMEN RIGHTS

The Southwest Showcase consignors reserve the right to collect semen on any bull in the sale for their in-herd use only. Any questions please contact the consignors.

### CATALOGUE PRODUCTION

Freelance Photo-Graphics joanna.freelance@gmail.com

### BULL DEVELOPMENT & DELIVERY

The Southwest Showcase consignors will keep bulls free of charge until May 1st, 2014. Buyers need to insure the bulls while being cared for by the consignors.

Option A: Bulls can be picked up at Heartland Livestock sale day and a \$50 discount will be deducted from the sale price

Option B: At the buyer's option and risk, the bulls can be returned to the consignor's farm and picked up anytime at the buyer's convenience.

Option C: Please make arrangements with the consignor if trucking is required.

### EPD EXPLANATION

EPDs are "Expected Progeny Differences". They are a useful tool in selection. EPDs incorporate the individual animal with its averaged ancestry performance. EPDs do not compare across cattle breeds, they are individually based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull's progeny. Use them for guidance in the direction you want your herd to go.

CSA Averages: Expected Progeny Differences

# X-T SIMMENTALS

**DON LUNDBERG & RYAN LUNDBERG  
AND FAMILY**

First and foremost we would like to thank all the bidders and buyers from our previous sales, if it wasn't for you we wouldn't be here. Many of you have been here and active at every sale and for that we are very grateful.

We raise our cattle here in the cypress hills much as our family has for the last 105 years. There is no creep feeding, grazing alfalfa, and no magic feed rations. We calve our cows in April and May and wean in October. The bulls are hand fed grain and hay where we strive to have them gain 100 lbs per month. Our goal is to raise our cattle using the same management style as our bull customers so they will work well for you.

Because of the age of the bulls at sale time, they will not be semen tested but they will be palpated and measured. We would like to take them back home until they are 13 months of age to semen test. Once they are tested, we will deliver them to you within the three prairie provinces at our cost. This has worked very well in the past; in the last 3 years, we have not had a bull fail his semen test so we are confident in this program. These bulls are fertile – we have had bulls used naturally breeding cows at 12 months of age.

Watch out for our two junior herdsman at the sale, Reece and Gavin. The bulls might be quiet but these two sure are not!

If you have any questions about the bulls, feel free to call Don or Ryan anytime.

82	845		12.8	2.1	66.4	101.6	10.5	61.0	27.8	-		

A big time herd bull prospect here. 2A is as long as a visit from your mother-in-law and thick in all the right places. He was shown at Agribition where he was third in class. Look at his EPD's; over 100 for yearling and over 30 for milk. High performing cattle and excellent daughters will be his legacy. Along with that an actual birth weight of 82 lbs and a calving ease EPD of 12.5 means he could be a heifer bull. We believe he is in an elite group with this complete of an EPD package. 2A's dam, 133X, is an excellent young cow out of a perfect cow family. His grand dam, 161N, also has a bull in the sale; a good TURBO calf LW 93A (Lot #3). *We would like to reserve the right to draw semen on 2A for in herd use at our expense and the buyer's convenience.*

- Actual Weaning Weight – 845 lbs at 190 days
- Actual Weight at 10 ½ months – 1325 lbs

## X-T RED TURBO 85A

PG796176

LW 85A

POLLED

14APR13

A real tank of a bull that is very similar in type to the TURBO son Sunny Valley purchased from us at last year's sale. (X-T RED TURBO 26Z) TURBO cattle are all so moderate in frame and big barreled with a big stifle muscle. Look at this calf from behind and admire the muscle and big wide top. TURBO bulls have been very popular at this sale with a number of them going to top end purebred breeders. If you've never had a TURBO, here is an opportunity to get a good one. The dam is a big cherry red daughter of FORTUNE BUILDER who puts a lot of performance into her calves.

- Homozygous polled test pending. Will be available by sale time
- Actual Weaning Weight – 800 lbs at 195 days

The first bull calf for sale sired by the SEISMIC bull we bought from McMillan ranching for \$38,000. We only had a small number of bull calves this first year; mainly heifers and they look very good. SEISMIC is royally bred maternally. The dam is a good young cow out of a long serving trouble free cow family that originated on our ranch nearly forty years ago. Stop in and see the grand dam 169R; you will love her!

Sired by SAV BISMARCK from the world renowned Schaff Angus Herd in North Dakota. SAV BISMARCK is a calving ease bull who produces daughters to die for. SAV BISMARCK was the #2 Angus bull for registrations in the United States in 2012. The dam, 58Y, is a beautiful daughter of WALK THE LINE who is also a very maternal sire. This cow family is black for many generations. We Al lots of our purebred first calf heifers to top end Angus bulls to produce these true half bloods. This calf will be a true calving ease bull that will give you lots of hybrid vigor for more performance and an excellent set of daughters that you will enjoy for many years.

Phenotypically a real nice calf; so moderate framed and attractive. WALK THE LINE has worked well for us, producing moderate thick bull and an excellent set of daughters. The dam's last four calves have been three bulls through this sale plus a bred heifer through the Agribition sale

- Actual Weaning Weight – 705 lbs at 190 days

A totally different pedigree here on this high performing calf. His sire came to us in a bred heifer purchased from Neal Carson and what a gem she has turned out to be. The sire, 1Y, was born small but he was also a real performer; gaining over 5lbs per day from weaning to yearling and weighed 1650lbs at fourteen months. Once again out of a real good HEAVYWEIGHT cow; isn't it remarkable how these good genetics keep showing up. The best genetics don't cost you money, they pay you back many times over the generations. If you see genetics that will work for you, dig deep and just buy them!

- Actual Weaning Weight – 840 lbs at 192 days

# BOUNDARY RANCH

**DARBY & SARAH DELORME  
& FAMILY**

Welcome to the 5th Annual Southwest Showcase Bull Sale. We are honored to be a part of this sale, and to be selling bulls with this group of reputable breeders.

This is one of the strongest sets of bulls we've had on offer and when going through their pedigrees, it's easy to see why. Many of our most productive cow families - Reggie, Heidi, Tumbler, Sarah and of course Storm - are represented in this group of bulls. Consistency, longevity, performance, with a balance of calving ease- it's all bred in. All of the bulls have been Polled and Color tested, though not all the results were in by cataloging time, so please feel free to call for more results.

We really encourage you to visit our website. We're very proud of our herd and every Dam and Sire of our sale bulls is pictured and available to view on their web page. Video of the bulls, scrotals, pictures of relatives, and more, are available on our site [WWW.BOUNDARYRANCH.CA](http://WWW.BOUNDARYRANCH.CA). Give us a call or stop by anytime and we'll be happy to show you around the bull pen and our cow herd.

Thank you to Bouchard Livestock for the excellent job they do with the sales management. Thank you to all those who have supported our program in the past; we look forward to seeing you all sale day!

## BOUNDARY IDENTITY 11A

PG784102

BOUN 11A

POLLED

06JAN13

Feature bull. 11A is one of those bulls that always catches your eye. He is exceptionally deep, powerful, soggy and dark red. His beautiful "Red Label" dam is very hard to fault - long, deep bodied, wide, dark red, and an udder that will last forever. 15X was named Reserve Champion female with bull calf (11A) at side at the SCPS last fall, out of 18 pens of pairs. Her sister 834U had our high selling red bull at this sale last year and the Tumbler cow family as a whole probably has the best udder confirmation on the ranch. 11A himself was the #1 ranked red bull for AWW and AYW and his EPDs top 30% for CE & BW, 25% WW, & 20% MCE. We love the depth of body and performance that his "Identity" sire infuses into his calves. 11A has the pedigree, performance, numbers and "look" of a great young herdsire.

12A is smooth as butter, deep bodied, dark red, and very correct, with a nice small head. His dam is a broody red blazed faced "Red Label" female with tons of milk. Heidi 725T was the 2nd high selling bred at the Kimlake Dispersal and was also shown as a bred. She consistently produces showy, top-end calves. Her great grandson sells as Lot 17. Sired by "Gunner" and with EPDs top 10% CE, 5% BW, and 10% MCE, 12A could be used on well grown heifers or on cows to add some calving ease without sacrificing performance.

Very clean made with a nice smooth front-end, but also a big hip and deep muscle that carries down into his twist. 36A is a great grandson of Heidi 725T (son sells Lot 16). His dam is a sweet-made "Easy Money" two year old with lots of milk. 36A has an 84 lbs BW, 283 day gestation and EPDs in the top 1% for CE & BW, so we think he'll work well on heifers. Like him for his looks, love him for the cows that back him up!

A very balanced correct, red / non-dilutor "Rampage" son with lots of hair and great disposition. 2A had a 282 day gestation, low 68 lbs birth weight and is bred calving ease top and bottom side of his pedigree so he'll work well on heifers. His dam is a moderate framed "Trademark" 2 year old with a big hip and nice tight udder.

**Homozygous Polled - Red - Non-Dilutor**

19

## BOUNDARY GUNNER 75A

PG784122

BOUN 75A

POLLED

16JAN13

75A is very correct, balanced, hairy, square made, with good muscling and a great disposition. His full brother was the high selling red bull at the YC Bull Sale to Diamond K. His  $\frac{3}{4}$  sister is the dam of Lot 20 and his maternal sister is the Dam of Lot 21. Both are powerful females that are a true testament to the greatness of 75A's Dam. At 9yrs old Reggie 110R is still a beauty with a great udder, tremendous depth of body, and thickness she transmits to all her progeny. Every daughter is working in our herd. 75A had a 72 lbs BW, and EPDs in top 10% CE, 1% BW, 30% MCE, so he'll be a sleep-easy calving ease bull with above average performance. We bred Reggie to "Gunner" hoping for a heifer, but we definitely are not disappointed in this bull calf. Keep every female out of this bull.

This March born bull packs a punch; he weighs as much as bulls 2 months older! His Sire is our own red / non-diluter 2Tempting bull, a "Temptation" son of our Abricot 356N cow. 200A is deep, wide, and stylish, just like his sire. He was a member of our show string last fall and we like him more every day. His heavy milking Dam was also shown and is a daughter of the great Reggie 110R. Great cow family, powerful phenotype, awesome performance, excellent EPD profile, modest BW – Talk about putting it all together!

**Heterozygous Polled**

22

94	709	1162	6.4	3.3	58.1	81.6	12.3	54.0	24.9	0.00

This loose made "Casino" calf is free moving, very deep bodied, and correct. His dam was the 2nd high selling heifer calf at the Kimlake Dispersal. She has a son that sold to the PFRA and a very good "Easy Money" daughter working in our herd. We used Casino successfully on heifers, so there's lots of calving ease bred in, but they also have good performance. 130A's EPDs rank top 20% BW & MCE. This bull's ear was injured and is droopy, but don't let that stop you from getting this top-end bull.

**Homozygous Polled**

A very balanced "Red Iron" son with good muscling and an excellent disposition. His Dam is a powerful "Crocket" daughter with lots of milk. 69Y was shown as a calf, as was her dam, Nettie 851U. The Nettie cows are moderate in size, however these cows have that rare ability to also produce heavy weaning calves – best of both worlds! 145A ranked 3rd of the red bulls for AWW and EPDs top 10% WW, 15%YW, and 20% MWWT.

**Heterozygous Polled**

24

## BOUNDARY STUBBY 129A

PG784133

BOUN 129A

POLLED

27JAN13

This guy has a tremendous phenotype; long bodied, smooth made, wide, moves like a cat, tons of great hair, and big testicles. 129A was 2nd in his class at Agribition to the Junior Champion Bull. Sarah 623S has been a great producer for us. Her first calf was Sarah 6U, a favorite on the Ranch and a cow that is really starting to impact our herd in her own right. 623S's "Enticer" bull calf was our high seller at the YC Bull Sale. She also had an amazing Temptation son that was Cattlemen's Choice at the MHPS and high seller at this sale in 2012 to Stoughton Farms and another Temptation son was one of the high sellers to Prairie Wind Farms in 2013. Quite a track record to say the least! His sire "Stubby" is one of the best & most consistent black sires out there right now. 129A's EPDs top 15% CE & WW, 20% YW and he ranked 4th of the red bulls for AWW and 3rd for AYW. This cherry red bull has an incredible future ahead of him.

Our first "Justice" sired bull calf and we really like him! Extreme length, thickness and big time performance. He ranked 3rd of the black bulls for WW, 2nd for YW and with EPDs in the top 4% WW, 2% YW, & 25% MWW, his EPDs certainly back-up his personal performance records. Dam is another fancy, good uddered, cow from the Sarah family. Her maternal sister has a son that sells Lot 27.

A very quiet, correct, hairy bull with good feet and he comes by it honestly. His Sire Walk the Line has the strongest, most correct group of 2 yr. old females we've ever raised. All of them are peas in a pod – balanced with great udders, natural thickness, and perfect feet. His dam is a thick "Top Gun" cow from the Storm cow family whose bulls have topped this sale year after year. Check her out on our website!

**Heterozygous Polled - Heterozygous Black**

## BOUNDARY FULL STEAM AHEAD

BPG784139

BOUN 154A

POLLED

05FEB13

Exceptionally thick, wide and long; this guy is a tank! The youngest black calf in our offering but also the heaviest, Full Steam Ahead created quite a stir at the MHPS. His brother was the high selling black bull at this sale last year to Workman Brothers and his Dam's sister had the high selling black bull the year before to Deeg Simmentals. His great grand-dam 405P, better known as "Storm", had the People's Choice Bull at the MHPS and 3rd high seller at last year's sale. His Dam is a beautiful, wedge shaped, deep bodied, super wide "On Target" female with lots of milk, and great hair. Based on her first two calves, I can say for sure that Storm 70X will be one of the great ones. Full Steam ahead is a big time performance bull backed by a great cow family.

# CROCUS SIMMENTALS

TIM, KATHY, LANE & KALE SCHERGER

Welcome to the fifth annual Southwest Showcase Bull Sale. We are experiencing some of the most exciting times the cattle industry has ever seen. The optimism and enthusiasm shown by producers has never been higher, and is a testament to the bright future that lay ahead.

We are very proud of the bulls we have on offer. Deep sided, wide topped, easy keeping bulls that are structurally sound with great hair-coats and quiet dispositions. They are developed with the future in mind. The weaning weights you see are with no creep feeding, so they are a good indication of their genetic potential. Some are calving ease bulls, while others will bring high performance to your herd, all backed by strong maternal genetics.

Thank you to all our past customers over the years. We truly appreciate your support of our program. If you require any further information about our sale offering, be sure to give us a call. We look forward to seeing everyone at this year's sale.

This is a bull we are very proud to offer at this years Showcase Sale. Dark red, loose hided, free moving with tons of muscle and hair. His mother is one of our best cows that has a perfect udder, wide top and tons of depth. She is a daughter of 16P cow that we have really built our red program around. The 16P cow is also the grandmother of the 17A bull that is also in the sale, making them  $\frac{3}{4}$  brothers. We are very happy with this group of Identity calves. They really have that extra muscle, power, and eye appeal. This bull has a very bright future ahead of him, don't miss out on this one. **Homozygous Polled Test Pending**

Dam: TPP Crocus Red Tiara 18T

Great bulls are backed by great cows, the mother of this bull is simply a great cow. The day she calves each year brings a little extra excitement around home, and when it is a bull we know he is going to be at the top of the pen next spring. This is the fourth son to sell through this sale, two of which have sold to Owen Schmitz, Central Butte and a third going down to Oklahoma. This year's bull is every bit as good as the ones before him and one you will really like.

# EDN SIMMENTALS

DEAN, CAROLINE, AMANDA & RAEANN NEITZ

Welcome to our 5th Southwest Showcase Bull Sale. We would like to express our appreciation to all buyers and bidders of our bulls, past and present.

We have worked to breed hardy trouble free cattle and believe very strongly in building around cow families that have proven they are superior.

The bulls on offer are the result of over 40 years of breeding and were selected from 153 born in 2013. We present them the way we would like to buy them – not overfed, no feet trimmed, semen tested and ready to breed cows. We stand behind our bulls, so if any problems arise please do not hesitate to contact us. We will have backup bulls available.

We welcome your call. The bulls are available at the ranch for viewing at any time.

Here is an outstanding herd bull that has it all. Axle is dark cherry red, awesome hair coat & disposition and very correct structurally. He is a non spotter, non diluter with a very strong set of EPD's right across the board. His young black dam is a moderate easy fleshing, nice uddered cow that is highly fertile. She has always conceived on her first service. Jay Good spotted her as a bred heifer and suggested we consign her to the National Trust Sale. It was no mistake keeping her for our own herd. Three daughters have been retained.

## EDN JACKPOT 116A

PG796716

EDN 116A

POLLED

21FEB13

You Might say we have hit the Jackpot with this eye catching proud herd bull sired by the \$50,000 Red Casino. 116A is long bodied, moderate sized, well-muscled and masculine. He has a small head a clean front and a tight sheath. He also possesses the sound structure, nice attitude and well developed testicles you would want in your next herd bull. His good young dam has done it again. Last year's calf was a high selling feature bull going to Diamond K Cattle Co.

## EDN ANTONIO 57A

PG796711

EDN 57A

POLLED

09FEB13

He is a very complete calf that has been popular with visitors all summer and fall, and just continues to improve. He is a deep red bull with black pigment on his muzzle, tail and black hooves. A really moderate long bodied bull that is thick in all the right places. He has a nice, wide top and a full quarter that extends down to his hocks. Proven genetics with the great BodyBuilder in his pedigree, twice, a real good Red Label dam. His dam is also the dam of one of two outstanding bred heifers sold privately last fall to Diamond K Cattle Co.

Ajax is a wide load. If this bull was going down the highway you would need a pilot vehicle. Probably the thickest topped and biggest butted bull we have produced. Once again structurally correct and he can really get out and travel. Put on mature cows to add muscling and pounds. All Highway 5 Tony daughters in our herd have calved unassisted as first calf heifers. His dam is medium framed, big bodied cow with a really nice udder. Two daughters in herd and a son to Lloyd Jorgenson (our top selling bull in 2011).

Here is a really moderate, big barrelled bull with good testicular development and a very easy going nature. Take note of the 86lb. birth weight. A big footed easy moving bull sired by Highway 5 Tony who was also the sire of our top selling black at last year's sale going to Charles Weisgerber. His trouble free dam has produced well. 131A was her 10th calf. Four daughters are in our herd, bulls have gone to Doug Goudy and Lane Bellew. She is also the Great Grand dam of 135A.

Homozygous Polled

58

## EDN ARLO 59A

BPG796712

EDN 59A

POLLED

10FEB13

Arlo is a bull I really like. He is medium frame sized, long bodied, smooth made, clean fronted and has a small head for calving ease. He walks effortlessly on a perfect set of feet and legs. Dog quiet and big testicles. He should increase milk flow and improve udders in his daughters. His dam is a consistent producing front pasture cow that probably should be in an embryo transplant program. Three daughters in herd and the pick of the 2012 heifer crop sold privately to Erixon Simmentals for \$8,000. A son is doing everything right for Wade & Klea Wasilow. The Grand dam by Joker at 11 years of age is still one of the best footed and uddered cows in the herd.

# HERTER SIMMENTALS

Welcome to the 5th Annual Southwest Showcase Sale. We would like to thank all the bidders and especially the buyers who have helped make this annual event a success. This year we are proud to bring to town what we feel is our best set of bulls to date. These bulls rank among the very best in terms of calving ease and maternals and have enough length and growth to satisfy your performance needs. This year's offering includes sons from our walking herd sire TSZ Apollo 508Y as well as a full and maternal brother. There are also some top notch sons out of MRL Outlaw 85X our senior herd sire and a Ranch Hand son who should make some powerful, attractive calves. Visit our website [www.hertersimmentals.com](http://www.hertersimmentals.com) to view additional information as it becomes available. Feel free to give us a call if you have any questions or stop by for a visit.

See you sale day!

Without a doubt one of the most complete bulls we have ever offered for sale. Phenotypically hard to beat. Bolaro is a super sound, free moving bull with excellent feet and legs, above average length, nice top, and ample bone. Bolaro is smooth made and has a nice temperament to boot. Bolaro is a direct son out of Hooks Shear Force the maternal and calving ease specialist and is backed by an excellent young Black Joker daughter who has quickly become a cornerstone in our herd. Bolaro's dam TSZ After Glow is a big volumed, mild mannered cow with superb feet and legs, excellent udder and length. Bolaro's grand dam has all the same attributes and is the dam to TSZ Moonshine 743A, the thick and meaty blaze face bull also in this sale. Bolaro's great grand dam can really pack some punch and has weaned the heaviest calf on our place to date at 1010 lbs some years back. She also raised the heaviest and biggest scrotalled bull of last year's sale going to Jeff Tucker of Central Butte. Some of the breeds best cow makers reside in Bolaro's pedigree such as Shear Force, Black Joker, Goldmine, Bodybuilder to name a few. Bolaro has a 91 lbs birth weight with an actual weaning weight of 880 lbs. on Oct 2/13 (850 ADJ & 3.7 ADG). When you evaluate the bull, his EPD's, pedigree, and the flexibility he will provide to a lot of red programs we think Bolaro is capable of doing some really great things.

743A pictured at 10 months

A moderate, loose made, easy fleshing bull with great hair and good disposition. Moonshine also comes with a premium paint job for those of you looking for a little chrome (no spots, dots or socks on the undercarriage of this bad boy!). Moonshine's sire MRL Outlaw 85X was purchased to add some performance, rib, and outcross genetics to our herd and has done this and more. Moonshine's dam TSZ Moon Glow is a real good blaze faced Goldmine cow who has done a good job for us and is also the dam to TSZ After Glow 317W (our flush cow and the dam to Apollo and two lots in this sale). She has excellent feet and udder quality and gentle disposition. Moonshine should add some stout to your calves for sure!

Dam (at 8yrs):  
TSZ Moon Glow 15R

Sire: MRL Outlaw 85X

A real good Ranch Hand son out of a moderate, clean made, beautifully uddered Shearforce heifer that is a full sibling by blood to our herd sire TSZ Apollo 508Y and TSZ Boloro 726A in this sale. TSZ Challenger was our heaviest weaning bull weighing 960 lbs. on Oct 2/13. Challenger is powerfully made with exceptional length and rib, nice hair and above average testicle development. Challenger will provide some punch to his calves siring those big soggy steers that are selling for a premium. And with Shearforce, Black Joker and Goldmine in his pedigree he should also make some top end replacement females. Challenger has great temperament and a nice set of Epd's to boot.

A larger framed Apollo son with clean lines and excellent structure. Adonis is the maternal brother to our last year's high seller TSZ Lincoln 645Z going to E&D Ranch Ltd. of Schuler, AB. to work with their top notch set of Hereford cows. Adonis' dam is a mild mannered sound made feminine cow who is always a favorite of people touring through our herd. Adonis should work really well on British type females giving them that extra dimension and growth and put those extra dollars in your pocket as well as strengthen maternals in your heifer pen. Polled/Color coat DNA tests pending.

A powerful, exceptionally long bodied, well balanced bull with nice hair and good eye appeal. 740A is one of the younger bulls we brought to town but is at the top of the pack when it comes to his growth and maturity. 740A was one of those calves that just took off from the start and never looked back. 740A's dam 127T has always had one of the better calves on a consistent basis and was the dam to TSZ Grid Iron 415X who sold in this sale a few years ago to E&D Ranch of Schuler. We also have some really good daughters in herd who are starting to make their mark as well. 127T is long bodied, clean made and good footed. 740A should do a nice job for his new owners and would work nice with Angus cows.

Heifer bull potential here! E-Z Out is a light birth weight option for those looking for a bull to provide calving ease with acceptable performance. E-Z Out is another Apollo 508Y son out of a smaller framed, clean fronted TSZ Odyssey 315W heifer. This pedigree combines many of the breed's best cow makers such as Shearforce, Joker, Goldmine, Bigsky and Powerdrive to name a few. This guy would work well in a cross environment and on mature heifers. Smooth made, moderate bone, with good hair and nice confirmation.

Definitely one of my favorites. This bull exemplifies what we are trying to do in our breeding program. Presto is a loose made, nice tempered bull with loads of volume, hair and style. He will be one of the first sons to sell out of the 2011 high selling bull at McMillen's MRL Outlaw 85X. Presto's dam TSZ Sweet Dreams 302W is developing into one of our best. She is a maternal sister to 723A in this sale going back to our leading lady TSZ Beauty 7N who has really got things rolling for us these last years. Sweet Dreams has a top notch son working in Kincaid, SK for the Hawkins family and a daughter retained in our herd. She is moderate, stylish and with as good of feet and udder as we have on the place. She has been very consistent in producing top end calves for us and we have plans to flush her in the future. Presto puts it all together and with an 89 pound birth weight and an actual weaning weight of 830 lbs. on Oct. 2/13 (909 ADJ 205 with a WPDA of 4.39 and Index of 108). That's slightly better than his sire with a CE # of 15.6 top 2% and BWT # in the top 1%. Don't pass this youngster up!

TSZ Bandit 723A is a smooth made, well balanced and structurally correct Outlaw son with good testicles and an excellent temperament. He is a 3/4 sibling to Presto 754A and comes out of a very strong cow family. His dam TSZ Maddison 103T is very sound with a perfect udder and feet that don't get any better. She is always popular with visitors and is one of the widest hipped, easiest fleshing cows we have seen in our travels and still has that femininity you want to see. TSZ Bandit 723A will provide a good combination of calving ease and performance helping to bring in those big high dollar steers and will add a lot of value in the heifer pen as well. **Homozygous Polled by parentage - DNA Tested Heterozygous Black**

## WIN A \$2,000 SALE CREDIT

Purchase a bull from any current Saskatchewan member and the registration papers are transferred, your name is entered to win a chance for a \$2,000 sale credit! The draw will be made at the SSA's Annual General Meeting in July and the lucky winner will have one year to use the credit at any public auction or private sale on bulls or females purchased from any current SSA member.

## SALE TERMS & CONDITIONS

The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. Bouchard Livestock Ltd reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, Bouchard Livestock Ltd reserves full power to re-sell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, Bouchard Livestock Ltd. and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

**BID** - Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.  
**DISPUTES** - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold.

**ANNOUNCEMENTS** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** - The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

**SHIPPING** - Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

**GUARANTEE** - All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

**EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

**HEALTH** - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Bouchard Livestock Ltd assumes no responsibility for the health status of any animal in the sale.

**ACCIDENTS** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

**BOUCHARD LIVESTOCK LTD IS AGENT ONLY** - It is clearly understood that Bouchard Livestock Ltd acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. Bouchard Livestock Ltd does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. Bouchard Livestock Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.
