# SOUTHWEST SHOWCASE BULL SALE

**MARCH 27, 2017**

**1:00PM HEARTLAND LIVESTOCK, SWIFT CURRENT, SK**

## WELCOME FROM BOUCHARD LIVESTOCK

Welcome to the Southwest Showcase Annual Bull Sale. The Southwest consignors have combined to offer the strongest and most consistent group of perspective herd sires to date. These consignors probably put as much time and effort into sourcing breed leading AI sires and each of them walk herd sires that sire the kind of cattle that are leading industry demands. The Southwest Showcase will offer bulls that have the potential to lead purebred programs as well as individuals ideally suited to fulfill the needs of industry leading commercial programs. Their later March date has become attractive to bull shoppers both purebred seed stock and commercial operators, as there is more time with better weather and less bull sale commitments. This sale has developed a reputation as a place seed stock producers can complete their bull shopping for the upcoming breeding season and commercial producers can purchase one or multiple bulls to replenish their bull battery for the upcoming year.

I urge you to call the individual producers and discuss your herdbull needs. They will walk you through the offering and recommend bulls that will meet your expectations and fulfill your herdsire needs. All of us at Bouchard Livestock are familiar with the potential herd sires on offer and are available to assist with your selection. We hope you can be in attendance sale day at Heartland in Swift Current. Should you be unable to attend give any of the Bouchard Livestock crew a call and we will work with you. Sale day phones are all listed in the front of the catalogue. I hope to visit with you sale day.

— Brian Bouchard

## SALE HEADQUARTERS

Holiday Inn Express 1.877.654.0228

## INSURANCE

Blythman Agencies Ltd 306.662.2604

## MEAL

Please join us for a great lunch at noon.

## SIGHT UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program and recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

## 100% GUARANTEE

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

## HEALTH AND FERTILITY

All bulls will have a scrotal measurement and a vet examination done prior to the sale. All bulls over 12 months of age will also be semen tested; any bulls under 12 months of age will return to the seller's farm to be tested after the sale. These bulls will be delivered once a semen test has been passed. All bulls have been treated with Ivomec and have current vaccinations. Contact the breeder for specific herd health programs.

## IN-HERD USE SEMEN RIGHTS

The Southwest Showcase consignors reserve the right to collect semen on any bull in the sale for their in-herd use only. Any questions please contact the consignors.

## BULL DEVELOPMENT & DELIVERY

The Southwest Showcase consignors will keep bulls free of charge until May 1st, 2016. Buyers need to insure the bulls while being cared for by the consignors.

### Option A

Bulls can be picked up at Heartland Livestock sale day and a \$50 discount will be deducted from the sale price

### Option B

At the buyer's option and risk, the bulls can be returned to the consignor's farm and picked up anytime at the buyer's convenience.

### Option C

Please make arrangements with the consignor if trucking is required.

## EPD EXPLANATION

EPDs are "Expected Progeny Differences". They are a useful tool in selection. EPDs incorporate the individual animal with its averaged ancestry performance. EPDs do not compare across cattle breeds, they are individually based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull's progeny. Use them for guidance in the direction you want your herd to go.

## Canadian Simmental Association Spring 2017 EPDs

# BOUNDARY RANCH

Box 36, Robsart, Sk., SoN 2G0  
Phone: 306-299-2006

Sarah's Cell: 306-299-7779  
Darby's Cell: 306-662-7993  
www.boundaryranch.ca

Welcome to the 8th Annual Southwest Showcase Bull Sale. We feel privileged to sell bulls with such a great group of consignors. We are really excited about this year's offering and hope you will be able to join us.

In 2015, we invested in a semen package from MRL Capone 130B and it paid off in spades. The Capone calves are very impressive as a group. We also have a big group of Royal Red bulls, who has worked very well here as well. On the black side, this marks the final group of Walk The Line sons as he was injured last year. Once again, he has a couple great daughters with feature sons in the sale. Cobra and Manifest have provided us some black sons with a balance of calving ease and performance.

We would be happy to show you around the ranch, but if you can't come in person, be sure to check-out our website [www.boundaryranch.ca](http://www.boundaryranch.ca). All the most up to date information is available on the website, including videos, weights and scrotals, and every bull's dam and sire are pictured, as well as many siblings. It's worth checking out.

Thank you to Bouchard Livestock for the excellent job they do managing the sale. Thanks to all the bidders and buyers who have supported our program in the past. We hope to see you all sale day.

BOUNDARY RANCH

## 1 BOUNDARY CAPONE 26D

Sale Feature. 26D has always been the favorite. Huge topped, long bodied, big volume, tons of cherry red hair, massive hip, and big testicles. This could be the most impressive bull we've produced to date. His Dam is a long bodied, fancy Rampage daughter that we had in to show as a calf. Her maternal sister is the Stubby daughter that was heifer calf Champion at Ranchmen's pen show and later sold at CWA to Crowe Bros. His grandam and great grandam are both still on the farm and are not only true beauties but great producers. The accolades to this family are endless. We have been very impressed with the Capone calves so far and 26D is proof of what he can do. 26D had the highest actual YW and AYW, ADG, & WPD of the red bulls. We are very excited about the potential of this bull and really want to be a part of his future. **Homozygous Polled / Non-Dilutor**

Dam: Boundary Sarah 62A

Sire of Lots 26D, 154D, 171D, 31D & 146D: MRL Capone 130B

Maternal Grandam: Boundary Sarah 19Y

Maternal Great Grandam: Boundary Silky Sarah 6U

100	787	1283	11	2.3	64.8	90.2	10.7	54.3	21.9	26.6	

154D is a thick, deep bodied, loose made Capone calf. His dam is big volume cow we purchased from Sprincreek Simmentals, that produced our favorite red replacement last year sired by Red Enticer. 154D had the 2nd highest weaning ADG & WPDA of the red sale bulls and EPDs in the top 15% CE, 25% BW, and 25% MCE. 154D will add capacity with above average performance. **Homozygous Polled**

3

101	791	1287	8.3	3.7	74.8	107	10	58.3	20.9	38.6	

171D is moderate framed with great width, muscle and hair coat. He was 3rd of the red sale bulls for AWW, ADG, WPD. He has EPDs in the top 25% CE, 15% WW, 20% YW, and 30% MCE. His dam is a powerful cow with lots of milk. She has a nice Royal Red daughter in herd. 171D should moderate frame, while adding thickness and his calves should have above average performance. **Heterozygous Polled / Non-Dilutor**

4

## BOUNDARY CAPONE 31D

Moderate framed, super thick and stylish, this guys is one of the reasons we are so high on Capone. His dam is a heavy milking "Identity" 3 year old, that has a maternal sister with a son in the sale (Lot 84D). His grandam, Calyna 47U is an easy fleshing cow that visitors easily find. 31D has EPDs in the top 15% CE, 20% BW and an 87 lbs birth weight so his calves should come easy and look good doing it. **Homozygous Polled / Non-Dilutor**

Here is another calving ease bull out of the \$75,000 "Red Mountain". 84D is phenotypically correct, smooth made and attractive in his design. We had his dam in as a heifer calf to show. She is fancy, but also big hipped and wide topped. She has a sister with a son in the sale (Lot 31D). 84D had a 85 lbs birth weight and EPDs in the top 20% BW and 15% MCE. He is a calving ease bull with style and presence. **Homo Polled test pending**

Embryo calf out of "Old Reggie 110R" and Capone. 146D has lots of bone, is long bodied and hairy, with a spot of white on his head. His dam has another son in the sale (Lot 189D below) and a great grandson (Lot 148D). With only an 81 lbs BW and EPDs in the top 35% BW, 146D should moderate BW but still provide some performance. His sons should pound down the scale and daughters will end up in the replacement pen. **Heterozygous Polled**

8

The natural calf off our Donor Reggie 110R. 189D is deep bodied, cherry red and smooth made. His dam is our ideal cow and at 12 years old, still has a great udder and perfect feet. She's raised many high selling bulls, but just as importantly, her daughters have gone on to do the same. 189D's had a ~æ sister that sold at Simmsational this year. Another son sells (Lot 146D) above and a great grandson (Lot 148D). **Homozygous Polled / Non-Dilutor**

Embryo calf out of Renata 3T and Royal Red. We were definitely hoping for a heifer out of this mating, but this dark red, meat machine is hardly a disappointment. As long as they come, with a big hip, progeny from 160D should pack on the pounds. His dam produced 2 daughters that sold at CWA to Tessier Simmentals and Ashworths and a son that sold to Douglas M Acres. Her calves have all been stylish but high performing and we feel 160D should do the same. **Heterozygous Polled / Non-Dilutor**

Long, smooth "Walk The Line" son out of our Tumbler 834U cow. She produced the \$28,000 bull we sold to Tri-Star Cattle Co, a full brother that sold to Kristine Scheller and Roxanne White, a full sister that had the heifer calf we sold at Simmsational in 2015 to Crossroads, and a feature son to Trailsnorth Ranch. She is an ideal, moderate framed cow, that always weans a big calf. 253D is the youngest calf in our offering, but he's a big performer. Lots of maternal and terminal traits here. **Homo Polled Test Pending / Heterozygous Black**

91	704	1234	7.9	2.4	54.7	74.8	4.4	47	19.6	17.8

A nice balanced bull out of the late, great Walk The Line. 136D will be one of the last WTL sons to sell. Walk The Line produced some of our strongest cows; many feature bulls come from his daughters, including this year's Lot 105D and 4D. 136D's dam is a moderate, good uddered "Trademark" cow with a beautiful "Viking" daughter in herd. Lots of calving ease in his pedigree and his EPDs top 30% CE and 25% BW. **Homozygous Polled / Heterozygous Black**

A big performance bull with a wide top, lots of muscle, and rib. His Dam 171Z is a typical Reggie; moderate framed, sweet made, and great uddered. She had the high selling bull as a 2 yr old to Curtis Simmentals and her Full Throttle 2 yr old is very similar to her in type. She has avg. 279 days for gestation on her first 3 calves. 105D had a 281-day gestation but also had the 2nd AYW of the black bulls. He has great spread on EPDs—top 30% CE, 25% WW, and 10% YW. Lots going for this fellow. **Polled Scurred / Heterozygous Black**

Heifer Bull. 250D is extremely docile, deep bodied and smooth with a nice, small head. His dam is a thick, wide topped cow with a level udder and lots of hair. His sire, "Viking", was the easiest calving bull we have ever used, and his daughters are gorgeous. 250D had a 77 lbs birth weight and EPDs in the top 5% CE, 10% BW, 20% MCE. We strongly considered keeping 250D for our own heifer pen, however he is related to too much of our herd. Our loss is your gain. **Homozygous Polled / Color test pending**

205D is sound in his structure and attractive. His dam is heavy milking and very deep bodied, with an excellent "Odin" daughter in herd. Her son, Sweet Meat 51B, cleaned up our replacements last year and was shown as a yearling. His grandam is our donor, Ready to Tango. Another grandson sells (Lot 48D). Manifest has worked well here, with sons that are stylish and heavy performers. 205D's has great EPDs - top 25% CE, 15% BW, 25% WW, 15% YW, and 20% MCE. A balance of performance and calving ease here. **Homozygous Polled / Homozygous Black**

## 20 BOUNDARY COBRA 48D

Boundary Tango 104B

Sire of Lot 48D, 89D, 186D:  
 NCB Cobra 47Y

Maternal Grandam 48D & 205D)  
 : LFE Ready to Tango 609S

Maternal Brother to Dam:  
 Boundary Hot Topic 120B

Feature Heifer Bull. 48D is balanced, has a very correct phenotype with an insane amount of hair, like all the Cobra calves. His dam is a product of our ET program. She is a beautiful, blazed face "Broker" 2 year old with lots of milk. 48D is a grandson of our donor cow LFE Ready to Tango 609S that we own with Bouchard Livestock and Lewis Farms. She has had many high sellers over the years and her daughters in herd are starting to make their mark. Ready to Tango 609S has another grandson in the sale (Lot 205D). 48D had a low 70 lbs birth weight, combined with EPDs in the top 5% for CE & BW and 15% MCE, so he should work well on heifers. **Homozygous Polled / Homozygous Black**

Welcome to the 8th annual Southwest Showcase Bull Sale. We would like to express our appreciation to all of our bidders and buyers over the years. We feel very fortunate to be working with such a progressive and reputable group of breeders, sales management, and customers.

We are excited to offer you a set of bulls that we feel display the qualities that we strive to produce. Deep-sided, wide-topped, easy-keeping bulls that are structurally sound with great hair and quiet dispositions. We believe these qualities come from the strict criteria that we have always had for our cow herd of sound feet and leg structure, udder quality, and dispositions. We feel that if you analyze our bull pen, these qualities are evident. They are developed with the future in mind. The weaning weights you see are with no creep feeding, so they are a good indication of their genetic potential. They are developed on a moderate energy ration to ensure soundness and longevity.

If you require any further information about the bulls, be sure to give us a call. The bulls are available for viewing any time and we look forward to seeing everyone at this year's sale.

We are going to start off the red section of our offering with a true sale feature, Cornerstone 17D. He has the genetic makeup and tremendous structure to take your program to the next level. He displays an impressive birth to weaning spread, with just an 83 lb birth weight while still maintaining good performance numbers. This is evident in his EPDs, being in the top 4% CE and 10% BW. He is very clean and smooth through the shoulder and neck, deep through the heart and flank, full in the hip and displays tremendous testicle development. He is sired by the \$46,000 Current Affair, who was the high selling red bull from the Wheatland program the year that he sold. His dam is a true model female, as are many of the Red Rock daughters who are raising some of the top bulls in the breed. Both on paper and in person he has a very promising future, take advantage of the opportunity. **Homozygous Polled**

TPP CROCUS VOLTAGE 67D

Paternal Brother to 67D—KOP 165A

Paternal Brother to 67D—KOP 416Z

Huge hiped, big middle, soft made and free moving are all words to describe this outstanding individual. This is the type of bull we strive to raise, solid made with lots of natural thickness and hair. When you get in behind him he has a ton of width and spring of rib. His sire, MRL High Voltage has really impressed us with his ability to sire both bulls and females with great muscle patterns and eye appeal. Good performance, large testicles and good disposition are just some of the excellent traits he will pass on to his calves. We think very highly of this bull, and we think you will see why.

LTS CROCUS AMARILLO 44D

Sire of LTS 44D—KWA AMARILLO 130Z

Dam of LTS 44D -KOP 114A

A bull that we can't help admire on a daily basis. Solid made from front to back, he has a lot of things going for him. Thick butted, wide topped, exceptionally deep bodied and moves out very well. The Amarillo sons are so consistent in type and kind, and have been very well received in the past two years. This will be the last son to sell, as we unfortunately lost Amarillo to an injury. His daughters are flat out awesome and will continue his legacy in our herd. This would be an excellent choice for your next herdsire, and the right kind for today's industry. **Homozygous Polled**

A dark red, loose hidied, free moving bull with lots of muscle and hair. His mother is one of our most impressive cows, both in type and ability to produce quality offspring. She raised our high selling bull in 2015 selling to Spruce Meadow Farms, and she has three excellent daughters retained in our herd. She has a tremendous amount of depth, rib shape and overall mass, along with being very structurally sound. If cow families are important to you, have a look here.

His dam's track record speaks volumes for the potential on this bull. This is the fourth year in a row she has put a top son in the sale, with her son last year being our lead off red bull selling to Gary Twedle. This is a bull that will add length, performance and style to his calves. He is a great example of this first set of Current Affair sons that have impressed us. We feel they will pass on this consistency and quality to their offspring, have a good look.

65	768		12.3	1.2	62.8	94.5	8.4	55.1	23.7	28

A dark red heifer bull candidate with just a 65 lb birth weight. He is very clean through the neck and sheath, smooth through the shoulder and long bodied. He ranks in the top 10% for CE and 15% for BW EPDs. The Red Force cattle are not only easy calving, but produce excellent females as well. This will be a bull you can use with confidence for calving ease, and will also add style and eye appeal to his calves. **Homozygous Polled**

27

**KALE CROCUS FRONTIER 22D**

A real eye catching calving ease prospect that is very clean through the shoulder, deep through the middle, and full through the hindquarter. It is rare to find a bull with such an attractive, smooth front end, yet very thick and stout in his make up. All this combined with just a 70 lb birth weight make him a very appealing choice. His mother is a first calf heifer that did a great job here, which is no surprise being a Gunner daughter who make great females. We hold our first calf heifers to the same standards as the mature cows, and she certainly proved herself here.

28

**TPP CROCUS FORCE 5D**

A very complete, dark red, strong-topped bull with lots of hair and a square hip. His dam is a dark red, big-bodied first calf heifer that really outdid herself on her first try. She goes back to the 13U cow that has been very productive and has a picture perfect udder. He is sired by Red Force, who has been a go to calving ease bull for a number of years. This shows up in this bull's EPDs being in the top 4% CE and 10% BW. This bull combines his moderate birth weight with excellent muscle shape, making for an appealing package.

**Homozygous Polled**

 TPP CROCUS NICHOLE 10N

A real wide-topped, big-footed bull that is deep through the middle and has excellent testicle development. He travels very freely, has strong performance numbers and an awesome hair coat. His dam is a super deep bodied, heavy milking Bravado daughter that is an ideal type of female. A maternal brother sold in last year's sale to Jason Zacharias. This bull will really add that extra muscling that he possesses, and will sire a pen of calves that will turn heads come fall.

Deep through the heart girth, full hip, good testicles, and overall very balanced. He is sired by the Current Affair bull, that calves very easy and adds a lot of style and eye appeal to his progeny. This bull's dam is a real tank of a cow, with a ton of capacity and substance to her. She has put a number of daughters in our herd that all have that moderate, broody, easy keeping look to them. Here is an eye catching stout bull that will add some quality and style to your next calf crop.  
**Homozygous Polled**

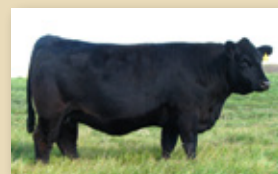

**31 LTS CROCUS SODA POP 29D**

This bull ranks as one of the top bulls we have raised to date. He has been noticed by a number of visitors in the bull pen, and you will see why. He commands attention with his tremendous length of body, neck extension, huge middle, big hip and overall power. He stands on a great big foot and moves out with ease. His sire is a full sib to the six Soda Pop heifers that sold at the FNL sale for an average of \$16,000. We can't say enough good things about this bull's dam, who has as much rib shape, volume and capacity as you'll find. This bull is the real deal and we are excited about his future. Opportunity knocks!

This was one of our favourite bulls all summer in the pasture, and he continues to impress us each day. He is an early maturing, free moving bull, with a lot of natural thickness and testicle development. We love the soggy, easy fleshing look that the Lotto cattle have and they are excellent footed cattle. We calved out a number of Lotto first calf heifers this year, and they are broody females that are setting up very nice udders. This bull has a real presence to him, and will be easy to find on sale day.

A real eye catching blaze face bull that commands your attention. He is a great example of what our new herd sire Thor has given us. A bull with excellent performance, length of body, spring of rib, and an easy moving stride. His black baldie dam displays excellent capacity and volume, while still being feminine with an ideal udder and teat size. Look for this bull to add length, pounds, hair and that great blaze face.

**Homozygous Polled**  
**Homozygous Black**

36

LTS CROCUS STERLING 40D

This bull has stood out from a very young age. We believe he is unique in his kind, and would be a great asset to many herds. He has an awesome hair coat, very smooth through the front end, displays great rib shape, full through the quarter and is as complete as you will find. Combine all this with a light birth weight out of a first calf heifer; the potential is huge for this herd sire. It is rare to find a bull so attractive and clean through the front end, yet still so stout in his makeup. We are very excited about this bull's future.

This is a bull that reminds us a lot of his sire, Thor when we purchased him as a yearling. He has a tremendous amount of length, is very well balanced and has a lot of presence and character to him. This is certainly the strongest group of black bulls that we've raised to date, very even in type and structure. When selling calves, length equals pounds and pounds equal dollars. This bull is sure to be a sound investment.

**Homozygous Polled**  
**Homozygous Black**

38

LTS CROCUS THOR 2D

Maternal Brother to 2D—LTS Crocus Obsession 29C

When you have the opportunity to analyze this bull you will appreciate his length of body, neck extension, muscle pattern and overall style. He is a high performance bull that deserves a hard look by serious cattleman on sale day. His dam came from McMillen Ranching out of the Shades of the Prairies Sale as a high selling bred heifer for \$13,000 a few years back. His maternal brother was a standout in the 2016 bull sale, selling to West Bench Colony. His dam ranks as one of our top black cows, both in phenotype and production record. We feel this bull will make a great addition to someone's herd bull battery.

EDN SIMMENTALS

Welcome to our 8th Annual Southwest Showcase Bull Sale. We would like to express our appreciation to all buyers and bidders of our bulls, past and present. We are pleased to again be working with Bouchard Livestock and the other 3 consigners.

We have worked to breed hardy trouble free cattle that work in our environment and believe very strongly in building around cow families that have proven they are superior. We retain our top replacement heifers, very few are ever offered for sale, thus building on those superior genetics. Cows with bad feet, udders or disposition are quickly culled.

Herd health is important to us. Our cow herd receives Express VL5 annually. Calves have all received 2 shots of Vista Once SQ and Vision 7/8 Somnus.

The bulls on offer are the result of 46 years of breeding and were selected from 139 born in 2016. We present them the way we would like to buy them – not overfed, no feet trimmed, semen tested and ready to breed cows. We stand behind our bulls, so if any problems arise please do not hesitate to contact us. We will have backup bulls available.

We welcome your call. The bulls are available at the ranch for viewing at any time.

— *Dean, Caroline, Amanda & Raeann Neitz*

Big time herd bull here. 136D is a very docile, big topped, heavy muscled calf that has stood out from the pack since day one. A good footed calf, with large testicles, sired by the easy calving Sheriff and mothered by a cow that consistently produces calves with a lot of power and performance. His dam is a favorite that has had 3 daughters retained and a son sold to Dahl Farms. A very good footed, nice uddered, fertile cow that has conceived every year from a single A.I. service. Pictured here, in her working clothes, awaiting the birth of her Westcott baby. **Homo Polled**

Here is a long, deep bodied loose made calf that will add pounds to your calf crop. Nice hair coat, big testicles and he has that long easy stride to get out and cover your cows. This guy is the pet of the bull pen and absolutely loves attention. Balanced set of EPD's across the board. Sired by Tonto, who was retained to carry on from HWY 5 Tony who saw 5 1/2 breeding seasons at EDN. His Dam has a son of Beefmaker working well at EDN. She is a long, hairy, heavy milking cow that always calves early and brings in a strong calf consistently. **Homo Polled**

He is an impressive heavy muscled, full bodied, son of Prime Beef. 95D started out at only 84 lbs. with a calving ease EPD of 12.4. Moderate sized, clean fronted, tight sheathed and has a small head. His pedigree combines maternal strength of Shear Force, Beef King, Big Sky, Red Quorum & Bodybuilder with the power of Red Texas. His deep red Dam stems from the 10E cow family. She ranks near the top of the herd for soundness of structure, udder quality and production record. Two excellent daughters in herd and a son sold to Hammer Farms **Homo Polled**

188D is our youngest bull selling. He has been popular with visitors to our bull pen. Thick made, moderate and hairy, he stands square on solid black hooves. His sire was the top selling bull at the 2015 Skor Bull Sale and has developed into an impressive herdsire. His cherry red dam is a feminine, tight-uddered cow from the 68D cow family. The Granddam is turning 13 and still going strong. Four of her daughters are in the herd. **Hetero Polled**

49

EDN BOSS 99D

99D is a wicked good prospect that should be staying at EDN. He catches your eye instantly with his proud stance, straight lines and muscle expression. He is clean fronted and tight sheathed. Super quiet, with big testicles and is one of the best footed bulls you will find. His Joker X Black Cisco Dam at 13, still has a flawless udder and perfect foot structure. All 12 of her calves were born early in the calving season. A Grandson of 42N (EDN Bingo 6X) was used in our herd. His daughters also have impeccable udders. Four front pasture daughters have been retained at EDN including a full sister to 99D. Sons sold to Bircham Ranch, Rod Feil, Cory Rath and Hammer Farms. We would like to reserve the right to use 99D in our own program, either semen or partial ownership. **Homo Polled & Homo Black**

Jackpot is a performance calf that will add length, growth and eye appeal and hair to his progeny. His EPD's are above average in every category including milk, maternal calving ease and maternal weaning weight. He stands square on big correct feet. His dam as a 3 year old, is one of the deepest ribbed and biggest topped cows in the herd. She raised this whopper, maintained her condition and bred right back. The Granddam is an amazing daughter of HWY 5 Tony that should be in a transplant program. **Hetero Polled & Hetero Black**

**52 EDN MCDREAMY 10D**

McDreamy has been a favorite all winter and becomes more impressive daily. Long as a freight train, low to the ground and just very sound and complete. With his 79 lb. birth weight and EPD's of 13.3 (top 4% of the breed) he should be a calving ease specialist allowing you to dream all night long. His sire is a highly proven calving ease sire whose semen is rare. His 2 year old Dam and his Granddam are 2 trouble free cows that will remain in the herd for the long haul. **Homo Polled, Hetero Black**

EDN VISION 30D

EDN Vision 30D

Dam of 30D

Granddam at 14 years of age

Here is a feature black, sired by Vision, a bull that has sired many high selling progeny early in his career. 30D is an impressive calf that is always noticed by visitors. He is naturally thick, deep ribbed and full quartered. Dog quiet, big nuffed and a leg on every corner. His square uddered dam will be the herd building kind. You should see her and her 2017 model, a Riddler heifer calf. The Granddam, at 14 years of age, is a model cow that is due again in late Feb. Our herd has been built around these type of fertile productive cows that are sound footed and good uddered well into their teens. **Homo Polled & Homo Black**

Bandit is one of the biggest butted, widest topped and deepest ribbed calves you will find anywhere. His picture does not do him justice. He needs to be seen in person. Nice, ring eyed guy that has no white anywhere else but his face. A sound structured calf that can really get out and move. Last year a red full brother was retained for a backup bull. His dam is a larger framed Enticer daughter pictured below. His Great Grand dam by Universe was one of those herd builders that produced until 14 years of age. **Homo Polled & Hetero Black**

# X-T SIMMENTALS

Don Lundberg | Ryan Lundberg  
 Box 297, Eastend, SK, SoN oTo  
 Ph: 306-295-3843 | Ryan Cell: 306-295-7999  
 ryanxbart@gmail.com

We can't believe this is already the 8th year for the South West Showcase sale. We sincerely hope that the buyers from all our previous sales had good results from bulls purchased here in the past. We strive to produce the most structurally sound and fertile bulls that we can. We feed our bulls with these goals in mind. They are hand fed a 14% protein bull growing ration and alfalfa/crested wheat hay. They will be in moderate condition at the sale. They could be heavier if we pushed them but that doesn't do much for their fertility or longevity. We try to have our bulls gain 100lbs per month but this year on the same ration as the past most of the bulls have exceeded that target. Our bulls are very fertile. Last year we tested 20 bulls at 11 months of age and 19 passed with the other one passing two weeks later. We would like to take the bulls home after the sale and deliver them to you in April if that works for the purchaser. Once again a sincere thank you to all the buyers and bidders for participating in the sale.

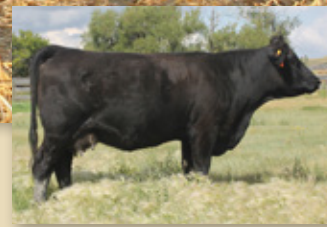

What a job Diesel 2D's mother did for a first calf heifer. She had him unassisted at only 82lbs and weaned him at an actual weight of 1015lbs, a pretty impressive birth to weaning spread. We also own her full sister TSN 12A and she is just as good, a super cow family. I don't think i can add anything to add to what Diesels sire Vision has done in the Simmental industry in the last two years. The marketability of his progeny speaks for itself. Diesel 2D himself is very moderate framed, super deep bodied and extremely wide topped, with lots of natural muscling. You cant help but admire the herd bull presence he has had since he was a week old. To top this off he also has a super temperament.

Diesel 2D and his dam were grand champion cow and bull calf pair at the Frontier Days pen show. He was also exhibited at the young Ranchmans pen show where he was champion bull calf over a large entry of all breeds. He was also displayed at Agribition where he was admired by many good stockmen. Don't miss this calf he has a world of potential and is the kind of bull anyone could use. **Homo polled Homo Black**

**X-T DOC HOLIDAY 16D**

16D is a real good bull with a unique pedigree. There are not many Ignition cattle in Canada. His dam is a real good Maxwell cow who has produced two top end bulls through this sale and her 2015 Red Zone daughter was one of the feature bred at Simmsational 2016 and sold to Northern lights simmentals. Doc Holiday is a blaze faced, real attractive and cleane lined bull that would work in your heifer pen or with a group of mature cows. When you get behind him he pops out with a big round rib and back through a great top and loin. He has a big wide hind quarter with lots of muscling. Our Ignition females are exceptionally good, we cant wait to get them into production.

**X-T BLACK DAZZLE 47D**

Here is another very attractive Ignition son who's got an extra rib, great big top and a wonderful hair coat. His young dam has also produced a \$15,000 bred to Perkin Land and cattle at Simmsational 2015. As we mentioned in the preceding footnote we really like our Ignition females. when we look at the heavy milking cows on the maternal side of this bulls pedigree we would think his daughters will be exceptional.

Our youngest bull in this years sale who will only be 11 months at sale time. He is moderate boned with a small neat head. He had a little more BW but was as long as a visit from your mother in law so i wouldn't worry about his calving ease as both his sire and maternal grand sire are good calving bulls. His dam was the mother of the very popular Bismark half-blood bull we sold in the 2014 sale to Kurt Gliem of Chaplin.

Some bulls are female producers and others are bull producers but very few produce both like Red Zone does. His first bred daughters to sell from both ourselves and Labatte simmentals were a highlight of Simmsational 2016. The first eight daughters to sell averaged \$14,700. Great sires come from great cows and Red Zones dam is just that. What a beautiful Powerline x Red Quorum female she is. All his progeny are just like they are stamped from a die, they are so similar in type. We feel the Red Zone progeny have a very bright future.

Million got injured before Barry's bull sale and so we were able to buy him later that summer. We only had a small sample of calves in 2016 but are looking forward to lots more in 2017. Million is a real long bodied, power and performance sire. His first calves were born average size and sure took off after that with amazing growth and phenotype. His dam is a great cow who really made her mark in the industry. Between Labattes and Meadow Acres they have a large number of descendants in their elite herds. Oh ya, and then a fellow by the name Jim Smith bought a full sister to Million at Simmsational 2016 for \$20,000. You will see a lot more of One In A Million progeny in the future.

We partnered with Robb Farms and Bouchard Livestock to purchase Missile for \$100,000 making him the high selling black bull in Canada in 2016. His sire is a bull Ryan and I really admired when we made him grand champion at Manitoba Ag EX and then he went on to be grand champion at Agribition three weeks later. The dam is a beautiful LFE Bundi daughter that Mcmillans state is one of the most elite females they have ever raised. Missile himself looks like a real herd bull with a real presence about him. He attracted a lot of attention while in stud with many favorable comments. The herdsman at Alta tell us his temperament is very laid back and easy going. Watch for Missile progeny in 2017.

**61 X-T RED DIMENSION 45D**

Here is a bull you will find quickly on sale day. He is a real attractive, deep bodied bull with a real herd bull presence about him. He is developing a real big set of testicles and is very clean sheathed as are all the Red Zone bulls. The bottom side of his pedigree needs no introduction as the Shear Force cows are well known for their productivity. The carcass EPD's on this bull are really good. **Homo polled**

**62 X-T RED DISTINCTION 14D**

This is a bull you wont have trouble finding on sale day. He has always had that herd bull look with his real thick quarter and big top. He also has lots of nice soft hair and a little more bone. Like all the Red Zone progeny he is real clean sheathed. All the Red Zones both male and female are so consistent in type its like they are stamped with a die. **Homo polled**

This is the power bull of the 2016 Red Zones. He had a actual weaning weight of 870lbs at only 171 days of age and after weaning went on to gain at a great clip. His dam is a big, cherry red cow who always does a great job. One of her Walk The Line daughters who we sold to MRL through the agribition sale raised one of the feature black bulls [lot 55] in there 2017 bull sale. Another of her daughters, a Tracker, we sold to Craig Hogg at Simmsational 2015 for \$20,500. Dont believe the performance numbers on this bull, His offspring will have a lot more performance than the numbers indicate. **Homo polled**

62D had a tough January. His CCIA tag caused a wicked ear infection that really set him back. His ear still hangs a bit but he is fine now. He is a real long bodied calf with lots of bone that will sire a great set of calves. His dam has been a real good producer with this being her third son through this sale. Buy him for his genetics, his ear is a long way from his testicles.

80			14.9	-1.9	50.8	80.9	14.6	61.3	35.9	15.8

This is a calf that just keeps getting better every day. His great young dam weaned him at an actual weight of 995lbs with a birth weight of only 80lbs. His sire is known for siring easy calving, light birth weight and extremely maternal offspring. 3D has a milk EPD of 35.9 which is in the top 2% if the entire Simmental breed. His great young dam was bred by the Workman's from Manitoba and we purchased her from Everett Olson as a bred heifer at Shades 2015. Have a careful look at this guy, We think you could use him on your heifers or cow herd and you would be left with a super set of replacement females.

88	765		4.3	4.6	63.8	87.9	9.7	60.5	28.6	28.6

Red Zone 85D is a real strong maternally bred bull. His real good young Seismic dam has a milk EPD of 33.7 which puts her in the top 10% of the breed. She goes back to a Big Sky cow who was a top producer at our place. Remember all our bulls with the exception of those out of boughten heifers are April calves so they will be 60 to 90 days younger than most of the rest of the bulls in the sale. We feel considering their age they dont give up performance to any of them.

This big fella is all about power and performance. Despite being born unassisted out of a heifer and with only a 86lbs birth weight he weaned at an actual 965lbs and has gone on to gain 4.85 lbs/day after weaning. He would work well on a bunch of maternal females that need more performance in their offspring.

## TERMS AND CONDITIONS

**The terms of the sale** are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. Bouchard Livestock Ltd reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, Bouchard Livestock Ltd. reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, Bouchard Livestock Ltd. and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

**Bid** Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**Disputes** In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**Purchaser's Risk** Each animal becomes the risk of the purchaser as soon as sold.

**Announcements** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**Certificate Of Registry** The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

**Shipping** Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

**Guarantee** All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

**Exception To Guarantee** In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

**Health** It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Bouchard Livestock Ltd assumes no responsibility for the health status of any animal in the sale.

**Accidents** Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**Rights And Obligations** The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

**Bouchard Livestock Ltd Is Agent Only** It is clearly understood that Bouchard Livestock Ltd acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. Bouchard Livestock Ltd does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. Bouchard Livestock Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.
