Black Angus Bull & Heifer Sale

Monday, April 1, 2019 - 1:00 PM - Cowtown Livestock
Maple Creek, SK

Sale Day Phones

Cowtown Livestock Office	(306) 662-2648
Tyler Cronkhite	(306) 661-8786
Brent Weiss	(306) 662-7229
Wayne Bowyer	(306) 662-7371
Brian Bouchard	(403) 813-7999
Don Delorme	(306) 299-7778
Darby Delorme	(306) 662-7993
DLMS: Mark Shologan	(780) 699-5082

LOCATION:

Cowtown Livestock, 1.6 km East of Maple Creek, Sask.

SALE STAFF:

Auctioneer: Gordie Cameron (306) 741-7077
Cowtown Livestock Exchange Office (306) 662-2648

Join us on sale morning for pre-sale viewing with a Complimentary Beef Lunch beginning at 11:00. After the sale there will be refreshments, please stay as our guests and enjoy the visit with fellow cattle producers.

VIEWING THE BULLS:

The bulls are available for your appraisal at the ranch until Friday, March 29th. Then they will be moved to the Cowtown yards where they will be available for viewing until sale time on April 1st.

TERMS:

Please register for a buyer number at the office prior to purchasing. All bulls sell under the Terms & Conditions of Cowtown Livestock Exchange. Terms of sale are cash or cheque payable to Cowtown Livestock. No bulls will be released without satisfactory settlement. *When making settlement for your purchases, please leave specific instructions for transferring of registration certificates.* Any errors discovered in this catalog will be corrected from the auction stand and will take precedence over printed material contained in this catalogue. Each animal becomes the responsibility of the purchaser as soon as sold.

BULL EVALUATION / HEALTH:

All bulls will have a complete fertility exam and semen test done by the Maple Creek Vet Clinic prior to sale. Bulls will not be sold on a 'deferred' result. Current weights and scrotal measurements will also be available prior to sale. Bulls have been vaccinated: Trasvax 8, IBR/P13/BVD (Inforce 3/ SomnuStar PH and Pyramid FP 5/Presponse) and pesticide poured. In the event that your bull is a non-satisfactory breeder please notify us immediately. He will be replaced with a bull of equal value or a credit will be given towards the purchase of another Delorme bull. We will not provide replacement or credit for physical injury or mismanagement.

On Offer Registered Black Angus

58 Yearling Bulls

5 Yearling Open Heifers

INSURANCE:

Insurance will be available sale day, on location from a Blythman Agency's representative. (306) 662-2604

\$100 OFF YOUR PURCHASE:

If you take your bull home the day of the sale upon satisfactory settlement of payment. If you are not ready for them we will gladly take your bull(s) back to our ranch for you but they have to be insured. After May 1st we will charge \$3.00/day. We ask that you please pick up your bulls by May 31st or contact us to make delivery arrangements. The earlier you get your bulls home to acclimatize, the better they do at the job you bought them for.

ONLINE BIDDING AND VIEWING:

Video and audio
from ringside with
www.dlms.ca

DLMS Online Bidders:

Please sign up and
confirm bidder approval prior to the sale.

Internet Bidding Available

DLMS

Welcome to the 2019

Your Choice Black Angus Bull & Heifer Sale

Hello ... The 2019 sale is geared up with another excellent line-up of bulls and heifers. Needless to say we are excited to present them for your inspection and evaluation. We are confident you will appreciate the depth and quality of this year's sale lineup. Raised in the same manner as always; modest gains with nutritional and health needs supplied, exercise and of course analyzing their overall breed character and traits.

We hope this catalogue finds you experiencing a stretch of decent winter weather, because as this catalogue is being put together we are experiencing the coldest [longest] stretch of, well ... crap so far this winter. Mid minus 40 wind chills can take the fun out of scrutinizing those newborn calves. You don't dare pop a few buttons in pride, it's just too damn cold. It appears this cold snap is as widespread as the drought area! Not to complain about January because it was, for the most part, exceptionally mild. Sure wish we would have done up the bull and heifer pictures then! Thanks to Shayla Duncan who had to bear with us through clipping and then again picturing. Also thanks to Cornelius Friesen, Heidi Beveridge and Will Banford for giving us a few days of their time ~ wish we could have ordered up warmer weather for picturing!

Which brings to mind; When do people who live in warmer climates do books?

For those new to us – we are the same program – different names but all the same herd. The "Fs" offered this year, are our family's third time through the alphabet. 22 years a set ... can account for a few gray hairs! But there is pride and satisfaction knowing we've outlasted the average span of a breeder by eight-fold. The influence of these 1960's Jay En Dee foundation female lines have built today's cow herd and are throughout the entire sale lineup. Take advantage of the opportunity to tap into decades of proven genetics we so passionately believe in. This breeding program and the females that make up our breeding herd has most assuredly been tested by time.

We are also fortunate to still be farming a long side Connie's

parents, Alfred and Jo. Over the years they have been a major support system; either as a knowledge/experience base or sharing their cropland as a source of fall grazing and winter feed. They have also ran a successful commercial herd since the 60s and our family's grade cattle sales include all three generations of ownership... check out the private treaty offering of replacement heifers on page 39.

- On page 40, just inside the back cover, you will find a handy index numerically ordered with the bull's actual tag #s (those recommended for heifers are also highlighted).
- Videos available for every animal via our ranch web site, www.DelormeRanch.ca
- This year's sale will be live broadcasted by DLMS for those unable to attend.
- The Sale Order, Weights and SC will be available shortly before sale time.

We welcome your company to look at the sale bulls, cows and walking sires that raised them. Time and distance putting limits on a road trip? Our web site (www.DelormeRanch.ca) as well as a Facebook presence (@DelormeRanch) will help you keep track of the cattle and horses. We hope you can be with us on April 1st. If you are unable to be with us in person, we have a competent support team to help you with absentee purchases.

Thank you to the many customers who have become friends and repeat customers over the years. You have taken the time out of your busy schedule to look through our catalog which is very much appreciated. We look forward to hearing from you and welcome the opportunity to earn your business and truly offer "Your Choice" of Angus genetics.

Lunch will be served at noon and the sale begins at 1:00. We hope you will stay after the sale for a bit of hospitality as we always look forward to visiting with you again!

Cheers and wishes for a bountiful, warm, green growing season for all our fellow ranchers and farmers.

AI SIRE: Calving ease sire that is producing thick calves with excellent bone and style. He is high volumed, very thick and eye-appealing. The heaviest quartered, biggest boned and footed calving-ease prospect produced from Musgrave's herd. With four Elite sires to support performance, his progeny have indexed very well in herds across the U.S. and Canada. Top: 2% BW, 25% YW, 4% MILK, 10% TM, 8% CE, 1% MCE.

WHAT YOU ARE LOOKING AT**The Performance Information**

As a further means to improve our herd we have submitted animal data to the Canadian Angus Performance, CAP program since it's initiation in the 70's.

• The test weights are for performance comparison **WITHIN OUR HERD** only. Consider and keep in mind that feed management differs with each breeder.

National Cattle Evaluations [EPDS] are conducted monthly. EPDs represented are from February 2019.

How To Read EPDs and Performance Data

EPD's are a measure of the expected differences in performance of a sire's/dam's progeny when compared to the average progeny of all sires/dams evaluated within the same breed. This prediction is based on actual performance, progeny performance and relatives' performance.

- ~ EPDs can be used to compare bulls/cows from different herds.
- ~ EPDs cannot be used to compare bulls/cows of different breeds.
- ~ EPDs allow breeders to estimate a young animal's breeding value and that animal's value as a parent
- ~ EPDs allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management
- ~ EPDs are the best tool available to compare animals between herds, countries and year of birth
- ~ EPDs help breeders make informed decisions regarding breeding stock selection by evaluating numerous traits, such as growth related traits (BW, WW, YW, Milk)

Interim EPDs - are indicated by an "I" preceding the EPD value. Interim EPDs are available for animals that were not included in the National Cattle Evaluation. The accuracy of Interim EPDs is generally indicated by a 5% percentile, as there is less data used to produce these estimates. A pedigree estimated EPD (PE) is the average of two parental EPD values (½ sire, ½ dam).

ACCURACY (%): the reliability that can be placed on the EPDs. An accuracy of close to 100 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

- **BIRTH WEIGHT (BW):** The birth weights of a bull's/cow's progeny when compared to the breed average, in pounds. Negative values indicate lighter BW while positive numbers indicate heavier.
- **WEANING WEIGHT (WW):** The adjusted weaning weights of a bull's/cow's progeny when compared to the breed average, in pounds.
- **YEARLING WEIGHT (YW):** The adjusted yearling weights of a bull's/cow's progeny when compared to the breed average, in pounds.
- **MILK:** A measure of the amount of pre-weaning performance gained by calves which can be attributed to the milking ability of a bull's/cow's daughters. The EPD is expressed in pounds of calf.
- **TOTAL MATERNAL [TM]:** Indicates the performance based on the calf's inherent genes for growth (WW EPD) and the influence of his mother's milk EPD. It is an indication of the weight of calf a bull's daughter will wean.
- **CALVING EASE DIRECT (CE) EPD:** The average difference in ease with which a sire's calves will be born when he is bred to first calf heifers.
- **MATERNAL CALVING EASE (MCE):** Is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Stout and smooth through the shoulder, with a long and square hip. 79F is bigger framed than the other Earnan sons. Same cow family as 29F. 904 is a type of cow that you could have a whole herd of, always garners attention when seen; smaller framed, easy fleshing with a stunning udder. Produces top end progeny every time. High selling son to Anhorn Angus, Cody and Nora Schock and one walking our place. Three Daughters in herd. Top 10% WW, 10% YW, 25% TM, 30% MCE.

Recommended for heifers. Long balanced bull, with a good stout hip. Purchased in dam from good friends Mark Forsyth and Mat Jones. They really love this cow family that produces exceptional offspring. Different twist of pedigree from our other offerings. 850lb actual W/W, 751lb adjusted W/W, indexing 114, fourth heaviest weaning bull. 3.29 ADG from birth to W/W, second highest. Indexing 114, ranked 4th for ADG from birth to W/W. Top 15% W/W, 15% YW, 15% Milk, 10% TM

A New Frontier son that is super structured, fancy made and very deep bodied. Tremendous hair with a larger frame. Dam is a flush daughter (Right Time 24J x 43D). At 12 years old, she is still a deep, broody, easy fleshing, great uddered female. She has a daughter with a son in the sale 5F. 53S has had sons sell to Rocky Top, Spring Coulee, Prairie Harvest Farms and one son that we used in our own herd.

These three bulls are all ET brothers. They are all similar in type and display strong masculine Angus characteristics. They are deep bodied, big girthed and thickly made from the ground up. Big nutted and easy fleshing. Dam 2N was a very moderate, thick bodied, long and deep cow. Super uddered and kept her udder suspension to a ripe old age and had perfect feet. 2N's dam was also flushed and produced until sixteen years young. Dam's pedigree goes back to great legends, like Traveler 8180, Sitz Alliance 695, New Trend 315 and Dakota Pound Maker. 2N produced our walking herd sire Rightway 134X and has sent sons to Todd and Rosanne Farnsworth, Rod Nelson Farms, David Drever and a daughter 992 who is owned by our grandchildren has bull 141F catalogued.

Feature herd sire prospect. Awesome performance - had the heaviest WW and YW. WW index of 116 and YW of 122. Deep ribbed, thick topped, long bodied, very masculine and big nuted. Dam is a deep, feminine and great uddered Consensus daughter out of our cherished Ruby cow family. Her dam 846 has elite status and is in our flush program, as was her Grand Dam 12N. Top 5% WW, 8% YW, 15% milk, 4%TM.

This free moving bull has style, balance, hair with above average growth traits. The Dam 151Z fits the mold of our cow herd - not overly large framed but feminine, displaying above average udder structure and do-ability on our semi-arid shortgrass fields. 151Z son to Suzanne Hird. EPD traits of: 20% WW, 15% YW, 20% TM

Recommended for heifers. Long, clean, smooth made with a small skull. A sleep easy sire. Should produce moderate, deep, super females. Had a YW index of 115. Dam 1R has her 13th calf on the ground and has five daughters in herd. Daughter 814 achieved Premier status in 2016 and she also is in our flush program. Dam is very moderate with a well structured udder. No matter what sire you use, she always throws low BW. Sons to Paul DeMars, Box Elder Farming and Arndt Ent. Daughter 46Z has bull 22F in sale. Top: 15% BW, 15% CE, 7% MCE

Commercial Open Heifers By Private Treaty At The Ranch

COMMERCIAL OPEN REPLACEMENT HEIFERS

Spring Offering of 60 Heifers ~ by Private Treaty

From the Delorme and Wardberg commercial herds is the 33rd Annual offering of Black yearling heifers.

Straight Bred Black Angus & Black Simmental/Angus

Contact us for the details

The Black Angus Cow is the commercial herd for the the 2nd to 4th generations actively ranching ... and has been since 1948, when Grandpa (Ole) Wardberg brought the first to this area. You'll have the opportunity to purchase from 60 home-grown Black replacement heifers. This will be our 33rd annual offering of *straight-bred Angus* females, almost entirely sired by home-raised bulls. 2019 marks the 9th annual offering of the *F1 crossbred Black Simmental/Angus Heifers*. These are also sired by home-raised bulls from Darby and Sarah's purebred Simmental herd. Half of the commercial herd are bred to Black Angus sires, the other half, Black Simmental sires. *For the most current information; Photos of Sires, Dams and the Heifers please visit our ranch web site.*

These fancy heifers will equally represent the two breed sire groups.
