SOUTHWEST SHOWCASE BULL SALE

WELCOME FROM TRANSCON LIVESTOCK

Great bulls, great people! A huge bonus here is the fact these bulls are born, bred and raised in Southern Saskatchewan, developed for the environment in which they sell.

Off the Eastern slopes of the Cypress Hills is the beautiful X Bar T Ranch, owned by the Lundberg Family. We are proud to call these people more than customers, but real good friends, and we collectively boast that they have sold cattle for more than 50 consecutive years, encompassing three family generations, with Transcon Livestock Corp! No doubt you need to "adjust your sights" when appraising these "April" born fellas. What I saw in the bull pen on my tour with Ryan in January was a wonderful set of naturally thick, super hairy set of bulls that showed off their sire groups, particularly "Missile". The bull himself was standing in the pen next to his sons and is simply a specimen.

The Scherger Family and ourselves also have a long track record and we are pleased to see Lane & Kacie (& Kale on certain weekends!) continuing on with the efforts that Tim & Kathy have laid before them. On that same January tour, this pen offered me a good cross-section of brothers that were sired by their own resident herdsires and some notable industry A.I. Sires. This bullpen is one of the quietest I've seen anywhere in my travels! Add to that, the fact they are big-ribbed, easy-doing, naturally long-bodied and well muscled, just a real nice set of beef bulls that will excel well in prairie conditions.

Move to Boundary Ranch and we find people who really live the ranch life. Not only operating a purebred Simmental herd East of the Consul prairies, there is also a purebred Angus herd, a remuda of Quarter Horses and a large commercial herd all owned and operated by different family members. Here's a bullpen that is being responsibly developed for longevity but also showing their genetic promise. Many of these bulls have Daddies that have bragging rights as former high sellers for Boundary Ranch, of which they retained semen on these top bulls they have bred to use in their own program. This is a great young couple that aren't "barn blind" to what they need to produce to work for the Southern Canadian prairies and beyond.

We are pleased to be the marketing & promotion team for these three excellent breeding programs and invite your inquiries. We are also available to act on your behalf on sale day, in your absence, through our industry-leading, highly-trusted, order-buying service. Call any of our Transcon cell phones listed, we guarantee confidentiality and we promise that if we don't like the bull, we won't send him!

LUNCH

Please join us for a great lunch at noon.

SIGHT UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program and recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

100% GUARANTEE

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

HEALTH AND FERTILITY

All bulls will have a scrotal measurement and a vet examination done prior to the sale. All bulls over 12 months of age will also be semen tested; any bulls under 12 months of age will return to the seller's farm to be tested after the sale. These bulls will be delivered once a semen test has been passed. All bulls have been treated with Ivomec and have current vaccinations. Contact the breeder for specific herd health programs.

IN-HERD USE SEMEN RIGHTS

The Southwest Showcase consignors reserve the right to collect semen on any bull in the sale for their in-herd use only. Any questions please contact the consignors.

BULL DEVELOPMENT & DELIVERY

The Southwest Showcase consignors will keep bulls free of charge until May 1st, 2020. Buyers need to insure the bulls while being cared for by the consignors.

Option A

Bulls can be picked up at Heartland Livestock sale day and a \$100 discount will be deducted from the sale price

Option B

At the buyer's option and risk, the bulls can be returned to the consignor's farm and picked up anytime at the buyer's convenience.

Option C

Please make arrangements with the consignor if trucking is required.

EPD EXPLANATION

EPDs are "Expected Progeny Differences". They are a useful tool in selection. EPDs incorporate the individual animal with its averaged ancestry performance. EPDs do not compare across cattle breeds, they are individually based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull's progeny. Use them for guidance in the direction you want your herd to go. With the release of the BOLT system, data is transmitted to the evaluation weekly and new results are loaded weekly. This means that averages and percentiles are subject to ongoing change. Please use the CSA website for the most up to date and accurate averages and percentile rank information. EPDs for this catalogue were taken on February 10.

On behalf of the Delorme Family, I would like to welcome you to the 11th annual Southwest Showcase Bull Sale. Thanks to all those bidders, buyers, family and friends who have supported our program over the years. Your faith in our family run operation is humbling and beyond appreciated.

We have an exciting group of bulls on offer this year. Many of our top bulls are sired by bulls that were raised right here. This is both gratifying and exciting, proof that all the investment we have made into our program over the years is coming to fruition. Our cowherd is still the heart of our operation, so there is mention of cows in all the write-ups. Our focus has always been on cows that are productive, sound, functional and fertile. That will never change. We aim to provide a balance of performance and calving ease in our offering, to meet everyone's needs, and we accomplish this by using the best genetics available.

We love showing people our cowherd, but if you can't come in person, visit our website

WWW.BOUNDARYRANCH.CA. The most up to date information is on the website, including videos, weights and scrotals, sire & dam pictures, and a production record for each cow. We like to have every tool available when selecting bulls, and we try to provide the same to our customers. All our bulls are Homozygous Polled and Color tested and results are printed in this catalog.

We would like to welcome our new sales management, Transcon Livestock to the sale. They have been through the cattle and will handle your inquiries and bids in a competent and professional manner.

1

BOUNDARY SWEET MEAT 155G

An impressive son of our walking herd sire Sweet Meat 51B and a testament to his excellent production. 155G and his dam were quite the pair this summer. He is dark red, deep bodied, with so much hip, muscle and style. Hard to find a hole in this fellow. His dam is a very attractive, 3yr old "Viking" daughter that is ideal in her make-up. 155G goes back to the Sarah 623S cow we flushed, who produced so many feature and high selling bulls over the years for purebred breeders and commercial cattlemen alike. His sire is a grandson of our Donor Tango 609S, so 155G is a combination of some of our top genetics. 155G has an incredible EPDs profile - top 25%CE & MCE, 30%BW, 35%WW, YW, & MWWT, 45%MILK, 10%STAY. A true sale feature with a lot to offer.

BOUNDARY RED ENTICER 15G

A replica of his Sire Red Enticer 82C that sold at this sale for \$28,000 to Tri-Star Cattle Co., only more moderate. 15G is backed by some maternal powerhouses. His "Sheriff" dam has an ideal udder; perfectly spaced, small teats and a tight fore udder attachment. She's deep bodied and overall very sound. Natalia 63D was Champion Cow with Bull calf 15G at side at Ranchmen's pen show last fall. Her dam was also crowned Reserve Champion with 63D at side in 2016. 15G combines some amazing genetics with his sire coming from our Tumbler cow family. His 1st daughters are calving here, and we love them. 15G ranked 3rd of the red bulls for AYW & YADG with EPDs that back this up - top 10%WW, 4%YW, 35%STAY. He's dark red, heavy muscled, sound as the day is long, and combines maternal power with sheer performance.

Cherry red, chock full of meat and muscle, rib, herd bull presence and shape. A maternal brother to the high selling bull last year to Maxwell Simmentals. He was also Champion Bull Calf at Ranchmen's and a member of our Champion Pen of bulls at MHPS. His 3-year old Sheriff dam is certainly proving herself. Excellent udder, moderate framed and balanced phenotype. She's got typical Tumbler longevity and production written all over her. Balance of calving ease and performance with EPDs top 25%CE & YW, 20%BW, 40%WW. **Homozygous Polled**

4

BOUNDARY AUTHORITY 69G

BOUNDARY RANCH

As dark red as they come, with a big top, deep flank, lots of muscling and bone, tons of base width. 69G was the Champion Bull Calf at the Ranchmen's Pen Show last fall. His dam is a tank of a cow, huge volume, usually doesn't even fit through our chute system! Nikki was purchased as the high selling bred out of the Agribition Sale. She has sons that sold to Cruikshank Farms Ltd, Colin Haggart and Open Shaw Farms and 2 daughters in herd, one with a son in the sale Lot 7. His Sire, Authority, has no semen available on the open market in Canada, and has been a supreme producer of high selling progeny. 69G ranked 4th of the red bulls for AWW, WADG, YWPD and has EPDs top 20% WW & YW, so this bull should also add some performance to any herd.

Big time performance, March born Esquire son, with loads of hair, big middle and huge hip. His dam, Calyna 3A, had a son sell to Camden Cattle Co., and 2 daughters in a row that were members of our pen of heifers at the MHPS. Last year's pen made the top 3. This bull has been one of my favorites for a long time, despite his age. I'm sure if he'd been indexed with the rest of the bulls, he would have been a top performer.

A stout, big volume, big hip, wide topped, Esquire son out of a good uddered "Capone" daughter. His grandam is the SVS Red Nikki 11X cow that has a feature son that sells (Lot 4). If this bull was the same age as the rest of the offering, he would be at the top of the pen. EPDs top 35%BW. Take a second look at this quality, younger bull, with a proven pedigree.

Homozygous Polled

8

BOUNDARY RED MOUNTAIN 83G

ET bull off one of my favorite cows to ever walk this place. 83G is the male version of his Donor Dam. Big, powerful, sound, with a sweet disposition. She was Champion Cow at Ranchmen's multiple times because of her beautiful phenotype, perfect udder and ability to produce. She also had the high selling heifer calf at CWA to Ter-ron, the high selling bull calf at this sale, and 2 daughters in herd. Isabella's udder quality is still superb at 12 years old, and her ability to pass this trait on is unmatched. Her granddaughter has a son in the sale (Lot 9), and no big surprise, she's built like Grandma. Red Mountain calves easy, has sired excellent, heavy milking daughters and some of our high selling bull calves. 83G had EPDs top 30% CE & BW, 10%MILK, 25%MCE, 20%MWWT. He also had the 2nd highest actual WW and YW of the red bulls. Big performance bull with tons of maternal potential.

Grand dam:
Boundary Isabella 206C

A nicely put together Renegade son. His dam was a stunning Red Mountain daughter that we lost shortly after she calved. His Grandam and Great Grandam are simply gorgeous, power females. His great Grandam is the Isabella 3U donor who has a feature son (Lot 8) that would be a ¾ sib to 189G's dam. 189G has an 85lbs birth weight, EPDs top 20%CE, 15%BW, 35%MCE combined with Renegade and Red Mountain in his pedigree, should calve easy. **Homozygous Polled**

10

BOUNDARY RENEGADE 73G

Feature Heifer Bull. Here is an impressive heifer bull prospect combining some of our top genetics. His dam stems from the Reggie family, going back to the old 110R donor cow that was in production until 15 years old and the farm favorite Reggie 8T, who is still in production at 14 years old. His dam, 198E, is an "Astute" daughter that really cranked one out on her first try. 73G is sired by our walking herd sire Renegade whose females are exactly as we expected, 2nd to none. 73G is extremely docile, dark red, with good muscling. He had a birth weight of only 73 lbs and EPDs top 20%CE, 4%BW, 40%MCE, 30%STAY and a short gestation of 281 days. Everything points to 73G being exactly like his father – safe in the heifer pen, but good enough to use on cows when he gets physically too big. **Homozygous Polled**

Dam: Boundary Amber 44E
 Maternal Sister to Lot 12

Another well made Renegade son with a friendly disposition and a nicely balanced phenotype. His dam is easily found by visitors with her trademark "Kill Switch" udder quality. His Grandam, Amber 65Z has been a standout, reliable producer of top-end feature bulls. This year's son being no exception, selling as Lot 12 (below). 205G ranked 3rd of the red bulls for AWW and had EPDs top 35%CE & MWWT, 30%BW & WW, 20%MCE. The combo of Renegade and Kill Switch could produce some really exciting progeny. **Homozygous Polled**

12

BOUNDARY RIO GRANDE 28G

Super stylish, long bodied, attractive, big time performing bull out of the new "Rio Grande" bull. 28G was a member of our pen of bulls at the MHPS last fall, where they placed top 5 out of 37 pens and he personally garnered some major attention. He was the #1 ranked red bull for ALL weaning and yearling data with EPDs that back it up - top 10%WW, 15%YW, 25%MWWT, 20%STAY. His impressive Dam's record is impeccable; her 3 bull calves have all made our show team, selling to Darren Priest & Darren Hannis, and Trevor Jones. Her 2 daughters are not only gorgeous but great producers in their own right, her "Kill Switch" daughter has a son in the sale Lot 11. Very exciting bull with so much potential.

Strong topped, lots of muscle, clean made, big foot with lots of heel, 51B was known as "Sweety" around the farm because of his disposition. He covered our heifer pen, commercial cow herd and purebred herd. Grandson to the Tango 609S donor cow. Progeny have tons of hair, are sound, and daughters have nice tight udders. We planned to use him heavy last year, but he died the day before turnout. A bull we are sure would have had a huge impact on our herd and will be sorely missed.

BOUNDARY BLACK ASTUTE 200G

This bull is exciting from nose to tail. He's the youngest black bull in our offering, but you sure can't tell. Massive top, muscle that carries down deep into his twist, deep flanked, huge volume, this bull is a tank with excellent foot and leg structure. He comes by all that honestly, as his "Full Throttle" dam is a powerhouse. She has a really thick, deep bodied, "Vista" daughter in herd and a "Viking" son that sold to K. Scheller and R. White. 200G ranked 2nd of the black bulls for YWPD and 3rd for WWPB & AYW and had EPDs top 15%WW, 10%YW, 10%STAY. Astute did a really good job on our black cows; a member of our Champion Pen of Heifers last fall was also a wicked black "Astute" daughter. 200G is the whole package and then some.

BOUNDARY BLACK CAPONE 8G

A bull we've been excited about since day one. 8G is attractive in every way, from his big hip, wide top, overall soundness, attractive skull, and herd bull presence. His dam had the leadoff black bull in this sale last year to Tyler Andmunson. Her sweetheart daughter 7C sold at CWA a few years ago to Alliance Simmentals. She won a few shows and went on to be Donor for them and ended up with a daughter in the donor pen as well. 124A is one of those cows that always cranks out a top calf. Her maternal sister has a crackerjack feature bull Lot 18. 8G's Grandam had the leadoff bull in this sale a couple years ago as well. 8G had a gestation of only 282 days, a low birth weight of 81lbs, ranked 1st of the black bulls for AYW, YADG & YWPD and had EPDs top 15%CE, 10%BW & WW, 4%YW, 35%MCE, 25%MWWT. Capone worked well here and 8G is proof. No guess work here. **Homozygous Polled, Heterozygous Black**

87	860	1217	9.2	1.2	90.2	137.6	25.7	7.0	70.8	46.9

Our longest bodied bull, with lots of muscle and width of top. His dam is ultra feminine, square uddered and her 2 yr old Renegade daughter 108F is the same (pic in Renegade's write-up!). 1G had a gestation of only 276 days, an 87lbs birth weight, but also was a heavy performer, ranking 1st of the black bulls for AWW & WADG, 2nd for WWPDP, and 4th for YWPD and EPDs top 25%CE, 15%BW & MCE, 1%WW & YW, 4%MWWT, 10%STAY. Great combo of calving ease, performance and maternal in this bull.

Homozygous Polled **Homozygous Black**

Feature Heifer Bull. Moderate and hairy, with a small, attractive skull, good footed and muscle that carries down deep. His dam is a soggy, easy doing, Capone daughter that was part of our show team as a calf. His Grandam is a top producer for us. Many will remember her Westcott son at last year's sale who was Reserve Champion at Ranchmen's and a member of our Champion pen of bulls at MHPs selling to Percyview Farms. Her 2017 son was a full sib to 125G's dam and one of our top bulls that year, selling to Nolara. She also has a fancy Rio Grande daughter in the replacement pen. 125G has a birth weight of only 75lbs, low gestation of 280 days and EPDs top 10%CE & BW, 25%WW, 35%YW & MCE so he should work well on heifers. Really cool heifer bull with substance.

Heifer Bull. A nicely put together Cowboy Cut son with a full hip and nice front-end. His 3 yr old dam was one of our top heifer calves in 2016 and turned into a good cow with lots of milk. His grandam, Storm 70X, was a donor for us with 2 high selling heifer calves at Simmsational and a high selling bull calf. With his 80lbs birth weight, phenotype, and EPDs top 15%CE, 20%BW, 35%MILK & MWWT, 10%MCE, 2%STAY, 40G should work well on heifers.

A smooth, clean made, Cowboy Cut son with good muscling, lots of base width, good feet and quiet disposition. His dam is one of my favorite 2 year olds; Stylish, deep bodied, and good uddered, similar in type to his Grandam who has a son in the sale, Lot 20. 134G has EPDs top 25%CE, 20%WW & YW, 25%MCE, 35%MWWT, 2%STAY. Good all around, attractive bull.

Welcome to our 11th Annual Bull Sale. It has been another eventful and exciting year. We welcomed a new addition to our family, Andie Jean Scherger, daughter of Lane & Kacie. We can't wait for everyone to meet her on sale day.

We find ourselves more motivated than ever to bring you the highest level of herd sires to select from. We feel that the strength of our cowherd is key to the long-term success of your future herd sire. Moderate framed cows that are easy fleshing with sound foot, leg and udder structure. Every year we get a number of people commenting on how sound and correct our bulls are in terms of foot and leg quality, and we feel this is very important. You need to be happy with your next herd sire not just on sale day, but for many years to come. Longevity is of utmost importance, and they are bred and fed to last.

We truly appreciate all the customer support we have received over the years, and the repeat customers are truly a testament to the quality on offer. We want to thank our sale's management team and all the bidders and buyers for your support. We look forward to seeing everyone at the sale as well as working with you in the future. If you require any further information on the bulls or if you would like to view the bulls ahead of time, be sure to give us a call.

28

LTS CROCUS RIO 7G

This is a standout bull that commands your attention. Naturally thick, deep bodied, full quartered with explosive rib shape when you get in behind him. He gets out and moves with ease, and stands on big correct feet. His dam is a beautiful dark red, angular, deep bodied cow with an excellent udder and is the kind you want backing your next great herd sire. This is the first group of Rio Grande sons available and they have exceeded all expectations. This bull represents what we strive to produce, both in phenotype and the genetics behind him. Take advantage of the opportunity.

LTS CROCUS RIO 11G

This bull has the genetic makeup and tremendous structure to take your program to the next level. Very clean through the shoulder and neck, deep through the middle and full through the hindquarter. It is rare to find a bull with such an attractive, smooth front end, yet very thick and stout in his makeup. Add to this he's as dark red as you could possibly make him. He's sired by the \$60,000 Rio Grande bull that has received a lot of attention. Rio Grande's mother is none other than the RF Certainly Flirtin 202Z cow, one of the most influential in the entire breed. Further adding to the maternal package, is this bull's tremendous dam the Glory 7X female. She is so broody, angular, and productive while keeping a perfect udder. If cow power is essential for you when selecting a herd sire, take a look here. **Homozygous Polled**

A very complete, dark red, wide topped bull with lots of hair and a full hip that carries all the way down. His mother is hands down one of our very best cows. Her production record speaks volumes, with this being the seventh son she has raised for this sale and every year they are at the top of the pen. That kind of track record is a strong indication of the quality and consistency this bull will sire. He is one of the first Ruger sons to sell, and as you will see they are a very impressive sire group. The bull himself along with the genetics behind him point to great things in this bull's future. **Homozygous Polled**

31

LTS CROCUS RUGER 97G

This bull is impressive from every angle. Full through the flank, deep through the heart and a huge hip that carries all the way down. Move in behind him and you will see a ton of rib shape and dimension. All this with just a March birth date means this dark red bull is just going to get more and more impressive everyday. The Ruger sired calves are some of the most stout, easy keeping cattle we have ever raised and this bull will be sure to pass this on. This good footed, free moving, dark red bull will be sure to draw some attention on sale day.

A long bodied, well balanced bull that is smooth through the shoulder and free moving, with that great dark red colour. His mother is a really nice Gunner daughter that are widely know as great females. The daughters from this bull should be very strong, just like his dam. His sire has done a great job adding length and performance while still producing eye appeal. This is a well rounded bull that will sire the right kind.

33

TPP CROCUS RUGER 73G

Some bulls just have that presence to them that make you look twice, and then keep coming back to them again and again. This is that kind of bull. He has had a number of visitors asking "who's he?" And comments like "wow that's quite the calf" have been stated a number of times. No matter what angle you view him from, or what features you deem most important, this bull is flat out impressive. He is structurally very sound and correct, with incredible thickness throughout, yet very clean and smooth through the front end and shoulder. Add to this a really unique pedigree that offers a ton of mating options makes this bull the total package. This is one of the top bulls we have ever raised and is sure to create some excitement.

Here is an early maturing, free moving bull with a lot of natural thickness and testicle development. Sired by Validate, who we purchased as the leadoff bull from the Crossroad Farms bull sale. His calves have really impressed us. We love the soggy, easy fleshing look they have and they are excellent footed cattle. This bull has a real presence to him and will be easy to find sale day.

38

LTS CROCUS CROCKET 21G

A big time herd bull prospect that we are proud to offer. Deep sided, long bodied and loose made, standing on big correct feet. He demonstrates explosive rib shape and width over the top. He gets out and moves so freely, hitting his holes and covering ground the right way. Crocket has long been known as one of the most consistent sires in the breed for siring top end progeny, both bulls and females. This bull's dam is a beautiful Red Force daughter that stems from a long line of our top red cows. Quality, consistency and proven genetics back this bull that you will have marked high on sale day.

A really stout, deep ribbed bull with lots of performance and thickness throughout. He is sired by the Pipestone bull, that we purchased from Mader Ranches as their leadoff and high selling black bull. He has proved to be a tremendous investment with this first calf crop. This group of sons is one of the strongest sire groups we have ever offered and you will want to have a close look at all of them on sale day. Use this bull to add length, depth, dimension and structural soundness. **Homozygous Black**

42

LTS CROCUS CHIEF 22G

If the cow family that stands behind your next herd bull is every bit as important as the bull himself, give this guy some serious consideration. His dam, the 804W cow, is an elite female that year after year raises a standout calf. A full brother to this bull was our high seller to the CP ranch two years ago, and a number of other sons have stood at the top of the bull pen. Every daughter has been retained and is following in her footsteps. One granddaughter was sold in 2018 as the high selling heifer calf at Simmsational for \$10,500 to McMillen Ranching. In addition to the cow family, the bull himself has a ton of natural thickness, is as deep sided as you will find and has that herd bull presence to him. Enough said, one of the best black bulls we have ever offered!

The Cobra sired cattle have become know as some of the most consistent and high quality the breed has to offer. They are born easy, grow well and develop into impressive individuals, both sons and daughters. This wide topped Cobra son has displayed strong performance and will add length and growth to his calves, something that always pays off during the fall calf run.

44

KALE CROCUS PIPESTONE 35G

Likely one of the most powerful and impressive black baldie bulls to sell this spring. He looks the part now, and has been impressive through every stage of his development. You will be hard pressed to find a performance bull that moves out the way this bull does, with a long free stride, exceptional length and natural thickness. You will have this guy marked high on sale day, and the most impressive part will be his first calf crop.

Looking to add some chrome to your next calf crop, while still maintaining excellent substance and soundness? Then have a look here. His black blaze face mother has a ton of capacity and rib shape to her, and she's passed these qualities on to her son. He was one of the real impressive bull calves on pasture beside his mother this summer, and we like the way he has continued to develop. He will produce early maturing, stout made steer calves and females you will want to retain every year.

A very complete, wide topped, stout made bull with great hair and a square hip. Added muscle while still maintaining a smooth shoulder and attractive head. He is sired by Pipestone, the leadoff and high selling black bull that we purchased from Mader Ranches. He has proven to be a tremendous investment with this first calf crop. His dam is a very good uddered cow that always transmits extra muscle and thickness to her calves. We think very highly of this bull, and we think you will see why.

Welcome to our 11th annual Southwest Showcase bull sale. We've been raising these cattle for a lot of years and they seem to fly by faster every year.

I think we have brought you our best selection of bulls ever. There are larger framed power bulls, top end heifer bulls, and something to suit every cow herd in between. The bulls are hand fed a 14% bull ration, crested wheat hay, and 20% lick tubs. They are fed to be grown out and just be in good condition at sale time. They will not be over conditioned and will not melt down when they are out with your cows.

Our cow herd has been developed over 50 years to look after themselves. They graze year-round on native grass and are supplement fed on pasture over the winter. There is no room for slackers here. They have to be good footed, good uddered, and fertile or they are gone!

A sincere thank you to all past buyers and a warm welcome to all first-time buyers. We spend a lot of resources and time accessing top end genetics to help you improve your cow herds.

48

X-T RED MISSILE 46G

46G is a very eye appealing individual that you notice as soon as you step into the pen. He just has that herd bull presence about him. He's thick topped, and deep ribbed with an abundance of muscling. His blaze face definitely adds to his character.

Behind every great herd bull is a great mother cow. 46G's black blaze faced dam is a big, attractive cow that you would really admire if you saw her. The WALK THE LINE cows are as good a mother as a bull could have. Our oldest WALK THE LINES will be 11 this Spring and without exception they are all perfect uddered, perfect footed, high producing cows with great temperaments. prospect!

X-T RED REGULATOR 83G

Here's a very eye appealing calf with a huge amount of body capacity. He's wide topped with lots of muscling – just the kind of bull whose male progeny will pound the scale down and his daughters will make excellent females. His sire REGULATOR is a big heavy muscled bull with perfect feet; he sires a lot of performance in his progeny without increasing the birth weights.

There were a number of open REGULATOR daughters sold this fall and they met with great buyer acceptance. We will be calving our first REGULATOR daughters in April and we are really looking forward to that.

X-T RED VIPER 4G

This is a big powerful individual with lots of bone and muscling, yet only an 80lb birth weight. Just look at the loin and spring of rib on this guy. He's very clean sheathed with good testicle development. We had a hard time picturing this guy; he's so damn quiet that he just wants to be near you in case he can get a scratch.

What a job his 2 yr old dam did on her first effort. It looked pretty ridiculous last fall when he would be sucking the heifer and you could hardly see her. She is a beautifully uddered daughter of RED ZONE – a bull we lost too soon as his daughters are great producers. There is some calving ease and real herd potential in this bull.

This is a very dark red, clean made bull. He is very long spined and has a real attractive look to him.

When I look back through his pedigree at the cows and the genetics of those females, I think I would want to keep all his daughters. 101Y has 3 daughters in our herd and she produced an outstanding RED ZONE bull through our 2018 sale to Sonny Berndt in South Dakota (LW 75E).

This guy is all about calving ease and maternal.

His sire has been used by Maxwell Simmentals with excellent calving ease on their heifers.

With the pedigree he has and only a 74lb birth weight, this calf is an absolute calving ease dream. He also has a lot of maternal potential with a number of great female producing sires on both sides of his pedigree.

Homozygous Polled

54

X-T BLACK MISSILE 47G

This is a bull that needs serious consideration if you are looking for an elite black herd bull. He is extremely wide based on a moderate frame; just right for the times. He has extreme depth and spring of rib to go with the heavy muscling he carries. 47G is also very attractive in his makeup and just looks like a herd bull!

We feel 47G would work really well on cattle that could use more thickness yet retaining that red ribbon phenotype! Once again out of one of those really good WALK THE LINE cows – the best mother a herd bull could have.

This is another bull with lots of performance and a little more frame. He exhibits a bit more neck extension and style. Lots of bone on this calf – he would work wonders on smaller framed black cows. He is out of a real nice Chescu cow that has put 2 bulls in this sale and 3 daughters in our herd with her first 5 calves. I think that is just the start of the story for this cow family!

Homozygous Black **Homozygous Polled**

56

X-T BLACK MISSILE 8G

8G is another big power bull with lots of spring of rib and depth. He is wide topped with a big thick loin and lots of capacity.

I wish we could have his dam at the sale because if you were to see her you would have to buy 8G. When I look at 79A's pedigree – WALK THE LINE x SHEARFORCE x IPU HEAVYWEIGHT – I don't think you could write it any better for maternal genetics.

Lots of performance bred in – he's in the top 20% for WW and top 30% for YW.

His dam had a real nice ½ blood heifer that we retained in the our commercial herd and then this bull for her second effort

61

X-T BLACK MISSILE 7G

If you need a big powerful black bull this guy will fill that role. He is a larger framed bull with just the right amount of bone and strong muscling. His dam is just a beautiful young cow. Her first calf sold through this sale and then her next 2, both MISSLE daughters, were both high sellers at Simmsational 2017 and 2019 to Ashworth's and Pheasantdale.

7G will be a moderate calver while adding lots of performance and superior daughters as his legacy!

Sire: NCB Cobra 47Y

Another big powerful bull with a ton of potential. Sire by the legend COBRA and out of our best first calver last year. The MISSLE females are tremendous young cows and are going to leave a legacy of their own!

5G is very clean made with just the right amount of bone. Lots of testicle development as of picture time in early February.

Full Brother: LW 138F

Another super made heavy haired son of the MISSILE bull.

The dam 53B has been a real producing machine. Her first calf X-T BLACK DIESEL went to Boundary Ranch, then a real good MISSILE daughter retained, then her 3rd calf a black MISSILE bull through this sale to Alta Genetics.

Maternal Grand sire:
MRL Tracker

Another real heifer bull candidate. His sire COBRA is used extensively on heifers and we used his maternal grandsire TRACKER for a number of years on heifers.

The cow family is real strong with MRL's 55W cow and a really good red ACCELERATOR cow 61X who raised us a lot of top end progeny.

TERMS & CONDITIONS

The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
