

Southwest Showcase

SIMMENTAL BULL SALE

13th Annual
Monday, March 28, 2022
Heartland Livestock Swift Current, Swift Current, SK

SOUTHWEST SHOWCASE BULL SALE

WELCOME FROM TRANSCON LIVESTOCK

Southwest Showcase 2022!!!! Like the name would suggest this is a "SHOWCASE" event in south western Saskatchewan. These group of three breeders need no introduction to the industry. X-T Simmentals, Boundary Ranch and Crocus Simmentals have been in the Simmental business for years and in the business of producing Ranch raised bulls. Seed stock that are bred to last and have longevity.

It's always a pleasure touring these breeders bull pens and driving thru the cow herds in the hot days of summer. The thing I notice the most is the consistency each breeding unit exemplifies from one end of the cowherd to the other. Good footed, Good uddered and Easy fleshing mama cows. This "STAMP" of quality and type really shows up when you tour the bull pens in the early months of winter.

They are always out sourcing and searching to find a herdsire that will help to improve and add a new twist to the upcoming breeding season. When they find something they think will add value to their programs they stick to it and make it work. Being consistent on breeding top end sires to the powerful cowherds they have built up over the years, brings us to this "SHOWCASE" Event annually. The bull sale offering is built around years of hardwork and the know how of crossing genetics and producing what the ranchers want.

On offer you will find Big Powerful cow bulls that are big ribbed, heavy muscled, loose hided, big hiped and hairy. Bulls with lots of testicle development and are overall structurally sound and good footed, they will get out and travel in the most diverse conditions.

There will also be a group of calving ease bulls to select from.... Bulls that are long spined, nice fronted, smooth shouldered with neck extension and nice skulled. They are bred for calving ease yet still maintain the performance necessary to keep the pounds at weaning and clip the coupon \$\$\$.

On behalf of the consignors and ourselves here at Transcon we invite you to join us on Monday, March 28th at Heartland Livestock in Swift Current.

We suggest if possible that you call the owners in advance and try to get to the farms prior to the sale to view these great sets of bulls. In the event you can't make it sale day give us a call and we can go thru the bulls with you. We will do our best to answer any questions you may have. Our highly trusted and very professional order buying service is free of charge to you. OUR PHONES ARE ALWAYS ON.....

TERMS & CONDITIONS

The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.

INSURANCE

Blythman Agencies Ltd 306.662.2604

SIGHT UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program and recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

100% GUARANTEE

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

HEALTH AND FERTILITY

All bulls will have a scrotal measurement and a vet examination done prior to the sale. All bulls over 12 months of age will also be semen tested; any bulls under 12 months of age will return to the seller's farm to be tested after the sale. These bulls will be delivered once a semen test has been passed. All bulls have been treated with Ivomec and have current vaccinations. Contact the breeder for specific herd health programs.

IN-HERD USE SEMEN RIGHTS

The Southwest Showcase consignors reserve the right to collect semen on any bull in the sale for their in-herd use only. Any questions please contact the consignors.

BULL DEVELOPMENT & DELIVERY

The Southwest Showcase consignors will keep bulls free of charge until May 1st, 2022. Buyers need to insure the bulls while being cared for by the consignors.

Option A

Bulls can be picked up at Heartland Livestock sale day and a \$200 discount will be deducted from the sale price

Option B

At the buyer's option and risk, the bulls can be returned to the consignor's farm and picked up anytime at the buyer's convenience.

Option C

Please make arrangements with the consignor if trucking is required.

EPD EXPLANATION

EPDs are "Expected Progeny Differences". They are a useful tool in selection. EPDs incorporate the individual animal with its averaged ancestry performance. EPDs do not compare across cattle breeds, they are individually based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull's progeny. Use them for guidance in the direction you want your herd to go. With the release of the BOLT system, data is transmitted to the evaluation weekly and new results are loaded weekly. This means that averages and percentiles are subject to ongoing change. Please use the CSA website for the most up to date and accurate averages and percentile rank information. EPDs for this catalogue were taken on February 10.

P: 306.295.3843
Ryan: 306.295.7999
ryanxbart@gmail.com

First of all thank you to all our loyal bull customers who have been buying their genetics at this sale for the past 13 years. We truly appreciate your support.

Our sale day last year was one of the worst blizzards in recent history and all but two of our bulls sold on order by our professional sales staff or on DLMS, not sure how Derek Tremere and Brandon Reutz got to the sale to buy the other two in person but we were sure glad to see a couple people in the stands. The Transcon livestock crew and representatives from Bohrsen marketing have been through the bull pen and are very familiar with the offering and our operation so if you have any questions about the bulls or would like some help with your purchases any one of them would be happy to lend a hand in a professional manner.

We changed our bull ration this year to a 14% pelleted feed from Bullseye and are very happy with the results. The bulls are hand fed ration twice a day and free choice grass hay. The bulls at this point are considerably heavier than last year but are not pushed but rather grown out. They will stay sound and work for you for many calf crops if looked after.

Due to our later calving many of our bulls are fertility tested at 11 months of age. Due to this we normally have a few bulls that sell decision deferred but the ones that come to the sale our vet is confident that with a little time they will be fine, any we are not confident in do not come to the sale. We have been doing this for many years and are comfortable telling you they will be ready to go by 13 months of age.

We will be selling a broad selection of calving ease bulls, power bulls and lots of bulls right down the middle.

Once again thanks to our customers. You are the ones who make it possible for us to keep doing this. Feel free to contact us any time to discuss the offering

Thanks, The Lundbergs

X-T SIMMENTALS

X-T RED JIVE 13J

- This is a real top end red calving ease bull
 - Long bodied, big hipped calf with lots of testicle development for his age
 - 13J was reserve bull calf at Ranchmen's Pen Show in Swift Current. He was the only April calf competing against lots of Jan and Feb bulls but he stood in with the best of them
 - Dam is a beautiful red Missile daughter that is hard to find a fault in and is admired by all who see her
 - We're planning on having a video available of the 147G cow before sale time
- Homo polled test pending**

- Big thick topped bull loaded with performance
 - Attractive profile with lots of timber under him
 - Dam is a very attractive thick bodied Workman cow we bought at the Biglieni dispersal
 - Big Milk EPD for a black bull
 - We have a full sister in red and she is a big, powerful heifer. She was one of our pen of 3 champion bred heifers at the Ranchmen's Pen Show in Swift Current
 - SFM 18D progeny were standouts at the Biglieni dispersal
- Homo Black**

boundaryranch@sasktel.net
www.boundaryranch.ca

Welcome to the 13th Annual Southwest Showcase Bull Sale. This set of bulls is very consistent, therefore I felt like a broken record doing write-ups. They exhibit a lot of natural thickness, width of top, muscling and hair. Many are highly related, which we hope will make it easier for those cattlemen looking for multiple bulls to find a few that will compliment each other and work well together.

We also have a larger group of calving ease bulls than usual. I struggle keeping calving ease bulls around (I am known for culling them as soon as we wean), but these bulls definitely earned their spot in the pen. We've worked hard at reducing the gestation of our cowherd and it is starting to show.

We encourage anyone interested in the bulls to come visit the Ranch. We want you to be satisfied with your purchase and we will do everything in our power to make that happen. If you can't come to the sale or the Ranch, please feel free to call us and we will be happy to go over the offering with you.

Please visit our website WWW.BOUNDARYRANCH.CA. Videos, weights, scrotals, sire & dam pictures, and a production record for each cow can be found on the site. All our bulls are Homozygous Polled and Color tested and results are printed in this catalog.

Thanks for your interest in our family run operation. Thanks to all those bidders, buyers, family, and friends, who have supported our program over the years, we hope to see you all sale day.

BOUNDARY MIDNIGHT 25J

Midnight is long bodied, wide topped, thick, heavy muscled, and very attractive. His dam had high selling sons sell to Rendezvous Farms, Scissors Creek Cattle Co., and NA Bar Land & Cattle. The only daughter she's had (first calf) sold to Alliance Simmentals at the CWA sale. She went on to be a donor and Champion at Expo Boeuf. She also had a daughter that is a donor for them. I would give anything for another daughter out of 124A. She has an average gestation of only 279 days on 8 calves. She or her sister 48B had our top 2 black bulls for the last 3 years at this sale, and their grandam 91Y did the same before them. 25J ranked 2nd of the black bulls for WW & YW, 3rd for WADG & WWP, 4th AWW, 5th for AYW, YADG, & YWPD and has EDPs Top 1% WW, 2% YW, 15% MWWT. Great bull with good numbers and a reliable pedigree behind him. **Homozygous Polled Heterozygous Black**

BOUNDARY HIGH VOLTAGE 5J

HEIFER BULL.
Talk about a heifer bull with some substance, 5J is thick, deep, and heavily muscled, but also has a tidy front-end and attractive skull. His dam did a whale of a job on her first calf, weaning off 60% of her body weight. His grandam is a beautiful, easy keeping cow that has a son Lot 42 that sells and is also notorious for weaning off some big calves and lead-off bulls. 5J had 74 lbs birth weight and gestation of only 278 days. Short gestation runs in the family as his grandam also has an average gestation of only 281 days on 11 calves. 5J ranked 5th of the black bulls for WW, AWW, & YW and has EPDs top 10% CE, BW & DOC, 15% WW, 20% MCE, 25% YW, 35% STAY, so he's a calving ease bull whose calves will be able to convert pounds in the fall. **Homozygous Polled Heterozygous Black**

A "Beast Mode" son that is sure to catch your eye. 77 lbs birth weight and gest. of only 276. His dam is known for her calving ease and low gest. averaging 277 days and 86 lbs on 9 calves. She's had sons sell to Siroski Simmentals and Leewood Ranch. 4 quality daughters in herd. 28Z passes her beautiful udder, small teats, and heavy milking ability on to all her daughters. 13J ranked 4th of the black bulls for WW, & 5th WADG. EPDS top 1%CE, 2%BW, 4%MCE, 10%STAY. Check-out feature, Lot 29's supplement pictures; there's a highly related paternal sister pictured that is pretty impressive.

Heterozygous Polled Heterozygous Black

22

BOUNDARY PROCLAMATION 74J

A bigger framed, deep ribbed, heavy muscled, "Proclamation" son, with tons of hair, big nuts, and a clean front-end. His dam is an ideal, sound, female that has lots of capacity, width of top, and a good udder. She had a high selling son sell to Sunny Valley Simmentals at the 2020 SWS Sale. His great grandam is our donor Sarah 623S that had many high selling bulls go through this sale. We really love our "Proclamation" calves here. He provides lots of calving ease, but still gives you a hell of a calf. 74J ranked 2nd of the black bulls for AYW, 3rd for YADG & YWPD, 4th for YW and has amazing EPDs - Top 5% MWWT, 10%CE, BW, WW, YW, MCE, & DOC. Top 25% for Milk & STAY. If numbers are important to you, but you don't want to sacrifice phenotype, have a good look here. **Homozygous Polled Heterozygous Black**

Clean made, awesome hair, wide top, round hip, and a quiet disposition. His full sister was a member of our Champion Pen of Heifers at the MHPS 2019. 14C has 3 daughters in production that are very eye appealing. She has a maternal sister and granddam with sons in the sale Lot 24 and Lot 25 (above). 51J had a gestation of only 278 days (14C's ave. is 278 days) and a birth weight of 86 lbs out of a mature cow. 51J ranked 1st of the black bulls for YADG and has EPDs top 20%CE, 15%BW, 25%YW, 30%STAY. Very attractive bull with impressive numbers.

Homozygous Polled Heterozygous Black

WALKING HERDSIRE: DOUBLE BAR D MOTLEY 412C

Motley had a sweet disposition, was sound, moderate framed, wide topped, good haired, easy fleshing and big bodied. He transmits all those traits time and again to his progeny. The foot structure on his progeny is absolutely impeccable which we feel is incredibly important, especially in these times. Motley provides lots of performance, yet the average BW of his progeny is only 89 lbs and average gestation is 280 days (7 days below breed average). His EPDs Top 3% YW, 10% WW, 30% MWWT.

Homozygous Polled
Heterozygous Black.
Sire of Lots 27, 28, 29, & 30.

Super fancy baldie, wide topped, big hipped, docile, and oh the hair this bull has. His dam is one of our favorite cows, long and elegant, 11E is always found by visitors. She had a stylish Cowboy Cut son sell to Nicholson Farms and an exciting, 2-year-old daughter that is a full sib to 16J in herd. His Grandam has a feature son that is a 3/4 brother to 16J below. You'll notice they have the same great hip and style. There's a reason we use Motley so much on this cow family, it just plain works. EPDs top 25%YW & 35%WW.

Dam of Lot 28 & Maternal Sister to Lot 29:
 Boundary Tango 11E

BOUNDARY RANCH

29

BOUNDARY MOTLEY 44J

Very sound structured, with excellent feet and legs. Super fancy, with tons of hair, top and middle. We liked 44J so much, we bred his mother back the same way. 104B has 3 daughters in herd, a powerful, nice uddered "Commissioner" daughter 127G, a "Grand Fortune" 11E that has a 3/4 brother sells Lot 28 and her 2-year-old 28H was Isabella's 4H project last year. 28H was Champion Overall Female at Achievement Day and Regional Fair. Isabella plans to show her again this year with bull calf at side. 44J's full brother and 3/4 brother (above lot 28) both have baldie faces so there's a chance the 44J will throw the money stripe as well. He has EPDs Top 25% WW, 20% YW. This guy checks off a lot of boxes.

ET son of 834U. Strong, wide top, moderate frame, lots of rib, easy fleshing ability, tons of hair, and quiet disposition. His dam's accolades are listed in his brother's (Lot 31) write-up. Dam and grandam 550R were very important acquisitions out of the Kimlake Dispersal. 550R's perfect foot and udder structure have been inherited by her daughters, granddaughters and great grand daughters. The Tumbler family is a go to for cattlemen looking to keep females. 69J had EPDs top 20%WW, 20%YW, 30%MILK, 35%MCE, 15%MWWT, 25%DOC. Sound structure, awesome cow family, impressive bull.

WALKING HERDSIRE: WHEATLAND RED EXPRESS 890F

We purchased Express with Bouchard Livestock as the high selling bull out of Wheatland's 2019 Sale for \$110,000. Express is sound, long bodied, moderate framed and moves like a cat. His dam is a gorgeous cow that many admire and still has a very nice udder and good feet at 10 years old. Express' first daughters are everything we hoped for and more. His sons are moderate framed, balanced, and wide topped. We are very excited about his future here. Average birth weight of progeny of 95 lbs, gestation of 287 days.

139J easily attracts attention of visitors. Exceptionally wide, long, and square, with tons of awesome hair, a huge hip, and good feet. His dam is one of our most powerful cows, deep bodied, and wide, with lots of milk and an excellent, square udder. The combination of "Full Throttle" and "Express" definitely clicked here. 139J ranked 5th of the black bulls for WWPD. 139J will add pounds without increasing frame.

180J is very similar in type to 139J – same great width of top, length of spine, squareness, and hair coat. His dam is moderate framed, tank of a cow, that is a 680S daughter. She has a really cool grandson in the sale, Lot 46. Katarina 75Z has 3 daughters retained in herd. Love the length and hair that Express adds. If you're needing more than one bull, 139J and 180J would work well together.

Twin. A bigger framed, performance, blazed face bull, with loads of muscle, depth of body and base width. His dam and grandam are both really attractive red blazed faced cows with exceptional udders and nice small teats. 10J had a 281-day gestation, 78lbs birth weight and ranked 2nd of the red bulls for YADG & 4th for YW & AYW. He has EPDs top 10%YW, 15%WW, 25%MWWT, 35% STAY. If you're looking for a money stripe but don't want to sacrifice performance, 10J will get you there. **Homozygous Polled**

38

BOUNDARY RED ROAR 207J

BOUNDARY RANCH

Big time performance bull here. Everything about this bull screams power - from his big bootie, muscled up loin, to his big barrel. 207J also has a sweet disposition and good feet. His dam is a clean made, heavy milking, big volume, cherry red, super consistent "Red Mountain" daughter. She's had 3 bulls and all three have made our show string, 1st two sons sold to Brett Callin. Her maternal sister 58Y is also one of our top producing cows that can be relied on to produce the great one's year after year. 207J powerful phenotype is backed by some pretty stellar numbers. He ranked 1st of the red bulls for YW, AYW, YADG, YWPD, 4th WWPD, 5th WW & WADG and had EPDs top 1% WW & YW, 10% MWWT. Great combination of a performance bull with some maternal cow power to back him up.

BOUNDARY CASH 45J

Heifer Bull. Really exciting Herdsire prospect here. Dark red, balanced in his phenotype and docile as puppy dog, like all members of the Reggie cow family. 45J couldn't be backed by a nicer group of cows, going back to our foundation Reggie 8T and donor Reggie 110R cows that both produced to 15 years of age and looked good doing it. The accolades and Championships from this cow family are too numerous to name here. His dam's stunning 3/4 sister has a son in the sale that is also a heifer bull prospect Lot 41. 45J had a 77 lbs birth weight but also ranked 4th of the red bulls for YADG & 5th for AYW, so this fella also has some performance. Incredible EPD spread top 3% MCE, 4%BW, 5%CE, 10%YW, 35%WW. A bull that will calve easy, but also will provide daughters that will last forever and look good doing it. **Homozygous Polled**

Heifer Bull. Sweet tempered, smooth shouldered, and moderate framed. His dam is the spitting image of 2X at her age, which is paying quite a compliment. She's cherry red, angular, has lots of rib, width of top, and the typical Reggie quality of udder. 147J had an 82 lbs birth weight and an awesome EPD profile - top 20%YW, 25%CE, & BW, 30% MCE, 35%WW & STAY (Top 50% or better for almost all traits). Cash worked well on heifers here and we feel 147J will do the same. **Homozygous Polled**

HEIFER BULL. Selected for our heifer pen, we liked the style and confirmation of Outlaw but were most intrigued by his beautiful dam and her relation to our donor Renata 3T. We expected Outlaw to make supreme females but are very happy with the look of his first bull crop. Outlaw's 1st & 2nd calf crop came unassisted. Average birth weight of his progeny being 78 lbs, 284-day average for gestation, and EPDs Top 1% CE, 2% BW, 3% MCE, 25% STAY attest to his success in the heifer pen.

The only way I could love this bull more is if he were 2 months older – if he was, I'm sure he would be considered our top red bull. His shape, base width, volume, wicked hair, foot structure and style are tough to beat. Dam is a smaller framed "Capone" daughter, out of a super thick, fancy 680S daughter, that has a son in the sale, Lot 33. 255J has EPDs top 20% CE, 25% BW, 35% MCE. Here is a bull that we considered keeping ourselves. Our loss is your gain. **Homozygous Polled**

HEIFER BULL. Moderate framed, younger bull, small attractive skull, clean made, smooth shoulders, tons of hair and excellent foot structure. His dam is out of our "Sweet Meat 51B" bull that worked well on heifers here. His daughters are turning into impressive producers with lots of hair and nice tidy udders. 210G has a maternal sister with a feature son in the sale Lot 40. 237J had an 81 lbs BW and EPDs top 15%CE & BW, 20%STAY, 35%MCE. His sire, "Outlaw", calves very easy on heifers and we feel this guy will too.
Homozygous Polled

48

BOUNDARY RED ALLIANCE 47J

HEIFER BULL. Cool phenotype - nice small skull, tidy, smooth, front-end, deep bodied, lots of hip, great hair and dark red. His cherry red "Rio Grande" dam did a great job on her first kick at the can, weaning off 58% of her bodyweight. His grandam is Sarah 62A who had a couple of our leadoff bulls, one being Formidable 52F (sold to Percyview Farms), whom we are excited to be using in our own program. 203G's maternal sister 5E had one of our top heifer bulls in last year's sale. Grandam 19Y and Great Grandam 6U were both great cows and are worth looking up on our website. 47J had a low 281-day gestation, a 79lbs birth weight, and EPDs top 15%WW, 30%YW. Very complete heifer bull here, take a good look.

On behalf of our family, I would like to welcome you to the 13th Annual Bull Sale. We want to express our sincere gratitude and appreciation to all of the bidders and buyers who have supported us over the years.

We are proud of those in the Ag sector and the livestock industry in particular that continue live, operate and thrive during these changing times. One thing that has not changed during this time however is our desire and motivation to provide you with the best selection of quality herd sires. Our 2022 bull sale offering is amongst the strongest group we have ever offered, both through their genetic make-ups, and their physical phenotypes.

We feel that the strength of our cowherd is key to the future success of your herd sire. Our cows are moderate framed and easy fleshing with sound foot, leg and udder structure. Every year we receive compliments on the soundness of our bulls and it is something we feel is very important. It is our focus that you are just as happy with the bull for years to come, as you are on sale day. These bulls are bred and fed to last.

We extend an invite to all who are able to attend on sale day, whether it is in person, online or on the phones. We would be happy to discuss the bulls with you prior to the sale at any time. The bulls are available at the ranch and then at sale facility prior to the sale for viewing. Feel free to contact us or connect with our great sales team to find the right bull to suit your operation.

LTS CROCUS IMPRESSION 51J

Dam: LTS Crocus Ms Rocket 24C

Sire: NUG Landmark 310G

Impression 51J has been a main topic of conversation around home for over a year now. Without a doubt one of the, and possibly the best bull we have ever raised. From an early age he displayed the same muscle shape, huge rib and tremendous presence that makes him so appealing today. The width over the top and huge hip this bull displays, combined with his structural soundness is truly impressive. He stands on big correct feet and displays great testicular development. His sire Landmark was the high selling bull from the Maxwell family, selling to Deegs and Muirheads. When given the chance to purchase an exclusive semen package on this exciting sire, we jumped at the opportunity. He has not only met but exceeded all expectations. This bull's dam is equally exciting and one we think very highly of. Dark red, deep bodied, tons of capacity with sound foot, leg and udder structure. A maternal sister to this bull is our top bred heifer and a one with a very bright future. She has that same tremendous depth, capacity and rib shape that this bull displays. We feel Impression 51J could very well be the most exciting and impressive red bull we have ever raised, and we can't wait to see which progressive breeding program he will take to the next level.

An ultra light birth weight bull starting out at just 61 lbs. He displays a tremendous birth to weaning spread and lots of natural thickness. Full though the flank, deep through the heart and a big hip that carries all the way down. His sire, Fortress 850F, was one of the feature red bulls from Lewis Farms and his first calf crop has been exactly what we were hoping for. We look forward to the positive impact he will have on our program, and the impact one of his sons could have for you. **Homozygous Polled Test Pending**

56

LTS CROCUS MILESTONE 1J

This is a bull that is right in so many ways. Smooth through the front end, deep ribbed, flat topped and well balanced with a ton of rib shape. His dam is one of our top young cows, that is as dark red as you will find with a picture perfect udder. She produced a daughter selling in Simmsational two years ago to Forden Fairview Farms, and a son selling in last year's bull sale to Ian Wasden. When you look back in the pedigree and see the maternal great Red Rock, it is no wonder why this cow has been such a great producer so far in her young career. The daughters from this bull will be outstanding, and he will pass on his balance, eye appeal and great muscle pattern to his progeny. If EPDs are something you place a strong emphasis on, there aren't many bulls that post a profile as strong as this guy. To display such strong numbers for calving ease, growth, maternal and carcass means this bull can be utilized in so many ways and the potential is endless.

A very complete, dark red, wide topped bull with lots of hair and a square hip. His dam is a dark red, deep bodied cow that always gets noticed on pasture tours. He is sired by Roosevelt who has gained a lot of popularity in the breed for the consistent type that he sires. This bull's EPDs rank him in the in the top 15% WW and 10% YW, which will add a ton of value to your next calf crop. A wise investment for sure. **Homozygous Polled Test Pending**

Dark red, lots of hair, deep bodied and balanced. Out of an excellent young dark red cow with an ideal udder. The Bootlegger daughters make ideal females and his dam is no exception. This bull had a certain look about him from a young age and was always getting noticed right from the start. He is very clean and smooth through the front end, while still having good thickness throughout. I believe the daughters of the bull will be very strong, as both sides of the pedigree have worked very well for us.

Homozygous Polled Test Pending

61

LTS CROCUS TYCOON 52J

A very complete, wide topped, deep bodied bull with great hair and a square hip. Added muscle while still maintaining a smooth shoulder and an attractive head. At 14 years of age his dam has been without a doubt one of our very best cows and best producers, so the decision was made to flush her to further increase her influence. This is one of the resulting embryos calves and we look forward to many more in the coming years. This bull is sired by Tycoon, whose calves have really been impressive in many programs. This bull combines the power and performance of Tycoon with maternal greatness on the bottom side, a sure fire combination for your next herd sire.

KALE CROCUS EPIC 14J

A blaze face bull out a blaze face first calf heifer that really out did herself with her first calf. The Epic sired calves are born with ease, and then really explode with growth soon after. They are really long bodied, eye appealing cattle. We have a number of young Epic daughters in production and they look to be very complete and productive females. Imagine the red blaze face heifers that this bull will sire, retain them for yourself or top one of the bred heifer sales where they are always in high demand.

We will start the black section with a calving ease bull that should be well suited for the heifer pen. He started out at just 62 lbs, and is out of a beautiful cow that consistently produces low birthweight calves. His CE & BW EPD's rank him in the top 20% & 15% of the breed respectively. Most importantly he is built to calve being nice headed and smooth through the shoulder and neck. He possesses all of these calving ease traits while still maintaining good thickness and length, a rare combination!

A real attractive blaze face bull that commands your attention. Excellent performance, length of body, spring of rib and an easy moving stride. His black baldie dam displays excellent capacity and volume, while still being feminine and strong uddered. This will be the fourth son she has put through the bull sale and she always stamps them with extra style and eye appeal. Look for this bull to add length, pounds, hair and that great blaze face.

A soggy, heavy haired bull that will add thickness and dimension to your next calf crop. His sire has done exactly that, added muscle and that easy keeping look. We just calved out the first group of Enhance Daughters and we are very pleased with them, broody females with excellent udders. The Enhance progeny are all stamped the same and you can certainly pick them out of a group for their appealing traits. His sons will certainly pass these on to the next generation, invest in one to carry your program forward!

CROCUS SIMMENTALS

66

LTS CROCUS ENHANCE 117J

The youngest bull in the pen being just a March calf, however that hasn't slowed him down as he is a very complete, wide topped, deep bodied bull with great hair and a square hip. Added muscle, while still maintaining a smooth shoulder and an attractive head. We are very impressed with the Enhance calves and the job he has done. He sires extra muscle, depth and that easy keeping look, traits that we feel are very desirable. This bull's dam is an excellent uddered Cobra female from a productive cow family. A well rounded bull that will fit in well into any program. **Homozygous Polled & Black Test Pending**

LTS CROCUS EXCEL 99J

This is what it's all about in our opinion. Tremendous thickness throughout, awesome hair, large testicles, standing on a sound and correct foot and leg structure. These are traits that his sire is known for in our program. His dam was produced from a group of embryos purchased from Sunny Valley. From three embryos we ended up with his dam and two bull calves, which were both popular and sold through this sale a few years back. The Sunny Valley Jacey 79W cow is a full sister to Jenna 88U, who is possibly the most influential donor in the breed today and the mother of Captain Morgan 11Z. Impressive in person and on paper, there is a ton of potential in this future herd sire. **Homozygous Polled & Black Test Pending**

If you are looking for a bull with lots of length, hip and performance, here he is. His large sound feet, full stride and large testicles just enhance the package. He is a Dynasty son, whose first calf crop looks very impressive for everyone that has used him. He is out of a very deep bodied, powerful cow that knows how to raise the good ones. If you are looking for a performance bull to increase your weaning weights and overall substance, this is the bull for you.

Homozygous Polled & Black Test Pending

71

LTS CROCUS STATESMAN 7J

One of the top curve bending bulls in the pen, starting out with a moderate 78 lb birth weight and soon after excelled with his strong performance. He exhibits tremendous length and a big hip, while standing on big correct feet. His EPDs are equally impressive, putting him in the top 4% CE & 10% BW, while ranking in the top 30% WW & 20% YW. His dam is a beautiful young cow that was purchased from Mader Ranches. She is part of the Opal cow family that has been admired for many years for producing excellent females. Statesman 7J is the type that will be noticed sale day, and his calves will stand out for years to come. **Homozygous Polled & Black Test Pending**

LTS CROCUS DYNAMIC 37J

A big time herd bull prospect that we are proud to offer. Deep sided, long bodied and loose made, standing on big correct feet. He demonstrates explosive rib shape and width over the top. We along with many breeders have been very impressed with these Dynasty calves. On the bottom side of the pedigree you have Commissioner x Powerline x Knock Out. This pedigree has as many influential bulls as you will find anywhere and this quality will surely be passed on for generations through this herd sire. This bull's dam is a model female with a picture perfect udder and comes from one of our very best cow families. This is a bull that ties it all together, both in genetics and phenotype. He has tremendous potential and will have a big impact in the future.
