Don Delorme (306) 299-7778

Darby Delorme (306) 662-7993

LOCATION:

Cowtown Livestock, 1.6 km East of Maple Creek, Sask.
Online Viewing and Bidding at DLMS.ca

TERMS:

Please register for a buyer number at the office prior to purchasing. All bulls sell under the Terms & Conditions of Cowtown Livestock Exchange. Terms of sale are cash or cheque payable to Cowtown Livestock. No bulls will be released without satisfactory settlement. *When making settlement for your purchases, please leave specific instructions for transferring of registration certificates.* Any errors discovered in this catalog will be corrected from the auction stand and will take precedence over printed material contained in this catalogue. Each animal becomes the responsibility of the purchaser as soon as sold.

BULL EVALUATION / HEALTH:

All bulls will have a complete satisfactory fertility exam and semen test done by the Maple Creek Vet Clinic prior to sale. Bulls will not be sold on a 'deferred' result. For prevention of footrot, the bulls have received their first vaccination and will require a booster. Bulls have been vaccinated: Fermicon 7/Somnugen, Inforce 3 and One Shot and boosted Fermicon 7/Somnugen, Pyramid FP 5/Presponse and pesticide poured. In the event that your bull is a non-satisfactory breeder please notify us immediately. He will be replaced with a bull of equal value or a credit will be given towards the purchase of another Delorme bull. We will not provide replacement or credit for physical injury or mismanagement.

ON OFFER:

52 Registered Black Angus Bulls

Current weights and scrotal measurements
will be available prior to sale.

VIEWING THE BULLS:

The bulls are available for your appraisal at the ranch until Friday, April 1st. We welcome your visit! They will be moved to the Cowtown yards where they can be seen from Saturday April 2nd until sale time.

INSURANCE:

Insurance will be available sale day, on location from a Blythman Agency's representative. (306) 662-2604

\$100 OFF YOUR PURCHASE:

If you take your bull home the day of the sale upon satisfactory settlement of payment. If you are not ready for them we will gladly take your bull(s) back to our ranch for you but they have to be insured. After May 1st we will charge \$3.00/day. We ask that you please pick up your bulls by May 31st or contact us to make delivery arrangements. The earlier you get your bulls home to acclimatize, the better they do at the job you bought them for.

ONLINE BIDDING AND VIEWING:

DLMS Online Bidders:
Please sign up and
confirm bidder approval
prior to the sale.

Internet Bidding Available

DLMS

Your Choice 2022

We are proud to present our Black Angus bull lineup from our family operation. Four generations and well into our fifth decade of offering "Your Choice" of Angus genetics. While we hope our videos, additional photos and notes give an extra "in person" feel to our print and online presence, we do look forward to hearing from you and welcome your visit to our ranch and home to see the cattle (and horses) in the flesh.

We have all thoroughly enjoyed breeding and working with these bulls we have put forward for sale this year. A nice quiet bunch, even alone in the picture pen. Drought babies, yes, but they have blossomed into impressive brutes that will leave you with progeny that will take you forward without worries... *These bulls just don't "happen"*.

Summered on a couple sections of good semi-arid native grasslands - no creep, followed by a winter ration of homegrown, tub ground roughage topped with a mineral package and aiming for a 3# ADG. As you study the lot offering, you'll notice a good number of bulls suitable for heifers or ably qualified to cover your mature females.

By sale day they will be semen-tested and scrotal measured; ready for immediate use if that is what your program calls for.

The mamas offer depth of pedigree you can capitalize on from one of the longest standing herds in Canada. Cows with a history, ones that will maintain their body condition and yet put enormous effort into their offspring while conserving the resources available. A cow that breeds depth, width, muscle, and fertility in a low maintenance package. A moderate framed cow, one that has good temperament and structure. When we experience the drought years we have just come through and analyze the cows that coped the best, you realize what traits count.

We are excited about the new sire groups as well as the strong sire groups from our tried and proven lines. We consider the performance they offer, mindful of the muscle, mass and frame structure and certainly the maternal strength in each sire's pedigree. Short gestation, early maturing, big capacity, easy fleshing animals are meaningful and what we seek for to pack the punch in performance, calving-ease and broodiness.

- Page 32 showcases the Sire of the Dams
- Page 35 features our private treaty offering of replacement heifers
- Page 36 is a tag # index (heifer bulls highlighted).
- Videos for the bulls online at: www.DelormeRanch.ca
- The Sale Order, Weights and SC will be available shortly before sale time on our and dlms web sites
- DLMS will provide online viewing and bidding on sale day

Thank You ~ Shayla Duncan, Mark Forsyth, Ty Schwan, Travis Derald, Denis & Colleen Cloutier, Kalee, and our granddaughters; Isabella, Mackayla, Neveah & Aeverie for helping us get the bulls cleaned up, pictured and videoed. We also appreciate and thank Tiffany at 14 West Creations for her help in getting our catalogue laid out for printing.

We are beyond thankful to our valued customers for their first or returning bull purchase. We appreciate your interest and investment in our program over the years and look forward to seeing you on April 4th at Cowtown Livestock in Maple Creek, SK.

Sincerely the Delorme Family

WALKING HERD SIRE: Wrath 9C: sound, with impeccable foot and leg structure. He was very stout, had a moderate frame, excellent muscling and a very good disposition. His calves are definitely stamped with all these good traits. We have retained a number of daughters; three bringing sons: 106J & 178J (pg 9), 268J (pg 27) to this year's offering.

86	831	1299

WALKING HERD SIRE: Settler 66E is a soggy made bull who is easy on the eyes with progeny consistent in type and growth. His Dam 19B produced Early Sunset's walking sire Settler 110D. Settler's female line are foundation cows at Green Valley, so we expect a maternal punch in these 66E progeny. EPDs in the top: 6% CE, 2% BW, 7% MCE, 7% MILK.

A power house to lead off this year's offering! Displaying extra length, mass and substance with tremendous hair. These Know How sons have great foot structure and the sire himself has top claw and foot angle EPDs. Docility? Know How ranks high there also and we can attest to that with his sons here. High performance and high gaining with a yearling index of 126 - recorded 2nd highest gain in our bull pen. This one has the pedigree and the look to be a big time herd bull. His highly productive mama is a sound structured, Thunder daughter; an efficient female with a super udder. The Eileens have proven to be an outstanding cow family. 52C's daughter, 81G brings 173J (pg 9) to this year's sale. 52C sons to Peno Land & Cattle and Burnett Angus. Top EPDs: 15%YW, 20%MCE

SOUTH SHADOW KNOW HOW 2J

SSA 2J 2206856 01/01/2021

A feature Know How son who is very docile and easy to handle. Has that herd bull look with a terrific Angus skull and presence. Long hipped, clean made, an abundance of hair with a great foot for structured soundness. A complete package - he checks a lot of boxes! Dam 65A is a broody, sound made cow; very easy doing with near perfect udder design and she is sired by the Elite designated Consensus. GGD 43D is one of the first females we flushed, (at 11 yrs of age). Longevity and fertility is built in, in this cow family. GD's full sister, 53S, just dropped her fifteenth calf in January. 65A sons to Paul Martens, Flowing Well Ranch with one son covering our herd. Posts a YW EPD in the top 15 percentile.

219J is phenotypically outstanding with thickness, body shape and mass. His overall length, depth, big foot and bone complete his bigger frame. His sire 23-29C is an own son of QAS Traveler 23-4 and out of our Joyce cow family. Bred by my Dad Johnny (the original Jay En Dee prefix that Isabella and Mackayla now own), we shared ownership for collecting ... 25 years ago! 29C sired exceptional females and we were looking for a female from this mating. 142C is a Resource daughter who is an easy fleshing, deep-sided tank. She too goes back to the Jay En Dee New Trend 14B daughter, 43D who we flushed. EPDs, due to older breeding, don't do this fella justice. 142C son to Tony & Carolyn Leismeister.

Recommended for heifers. 112J should be very easy calving with his long, clean, smooth conformation. 94F is a beautiful, wedge shaped Resource daughter with a good udder and excellent maternal breeding. Her full brother was high seller in our 2020 sale to Howard Bock. Top EPDs: 6%CE, 4%BW and 7%MCE.

A fabulous foot under this deep bodied, strong topped, Torque son. He has that herd bull presence with his excellent muscle shape and balanced structure. Power and performance with a 116 YW Index. Did we mention hair? His Dam is a sound, big-bodied Resource daughter owned by our grandkids; Nevaeh, Aeverie, Oskar and Ole. She is clean-fronted and feminine with very nice udder quality. This is her third calf, all bulls so far - she's making it difficult to build a herd! GGD 2N was in our flush program. 63E sons to Bouchard Livestock International and April Haggart. Top EPDs: 15%YW, 15%Milk.

Our Torque offspring have as close to perfect foot structure as you can get out of all the AI sires we have used; daughters are very feminine and with unbelievable udder quality. Very balanced and long spined. This guy is also very good footed and long in the rib. Clean through the shoulder and balanced from front to tail. EPDs Top 10% W/W, 2% YW, 20% MILK. If you're looking for performance, 148J had the highest YADG 4.48 lbs/day Indexing 136!

Recommended for heifers. As I have stated about the Torques, great foot quality and length of body with good hip development. The dam shows real angus character, don't find them much deeper bodied from chest to hip. Larger framed, easy keeping, female with great udder for her age. EPDs Top 20% CE, 25% BW and W/W, 10% YW, and MILK. W/W ratio 110, and YW ratio of 103. Full brother was 2nd high seller 2018 to Flying T Land and Cattle, 1 beautiful full sister in herd and 2 half sisters.

Another bigger frame bull that is deep and long through the rib, also very soggy made. Comes from my best cow family, everyone that has seen the Granddam and Dam have said they wish they had a pasture full of these types of cows. They are moderate framed but have tons of volume and are very feminine females that have perfect type of teat and udder structure. Small in stature but big in performance, and very easy keeping. Definitely a no miss cow for females and males 75J has EPDs Top 25% for CE, 10% MCE, 15% WW, and 10% YW. WW ratio of 113 and YW ratio of 109. Sons to Anhorn Angus, Cody & Nora Schock, Cypress Farming Co, 40 Mile Grazing, Casey Gordon, Upward 80A that walked our purebred herd, and four daughters in herd.

A 9C son with herd bull character; muscle, body mass and big scrotal. Excellent foot and sound structure just like his sire. With a WW Index of 111, those fall run steer calves will weigh up. His Dam, 98C is an ideal Angus cow that is moderate in frame, easy fleshing with exceptional udder quality. You'll likely be eyeing his daughters for keepers or taking advantage of selling them into the replacement female market. GD 31N placed seven daughters in our herd over the years. 98C sons to Trevor & Moneec Frey and Craig & Tammy Dumontel

Recommended for heifers. A stylish, calving ease, Thunder son who is long-spined, smooth shouldered and shows that herd bull presence. He moves out well on a very strong foot, under a strong structure covered by a good hair coat. Powerful growth in a big time spread from a +1.3 BW to +124YW EPD. As an individual he ranked higher in his contemporary group with a 110 WW Index and a 113 YW Index. Thunder, as a sire of producing females, has a very strong presence in our herd. His Dam, 97F, is a bigger framed cow with a lot of power and growth, both in the flesh and pedigree. His Elite designated grand dam, 133Z is one of our favorites. She is also a maternal sister to the Tomboy 130B sire that is referenced as a 'Sire of Dam' on page 32. Top EPDs: 10%WW, 4%YW, 10%MCE

This bull has a ton of grow to him. 36J has a very moderate birth weight of 82 lbs with impressive growth for a 105 W/W Index and a 116 YW Index. He is a long-spined, deep-ribbed, structurally correct, larger framed Earnan son displaying exceptional muscle pattern in an overall smooth, powerful package. His Dam, 128E is a long bodied, very correct with exceptional udder development. She produced a top selling, heifer bull in last year's sale going to Ironside & Sons Cattle Co. 128E's Mat sister presents tag 242J (pg 29). Top EPDs: 25%CE, 25%BW, 10%WW, 7%YW, 7%MCE

Recommended for heifers. A powerful, easy-keeping kind of bull who not only brings you bold rib shape and length of body, but he has the muscle and performance for tremendous growth. This bull shows us that you can have a small birth weight (he hit the ground at 65 lbs) and come in to weaning with an adjusted weight of 728 lbs with an W/W Index of 115. Stunning spread in his birth weight to yearling weight EPD with a 104 YW Index. A nice Angus head on a good foot, he'll cover your heifers with the promise of settling the cowherd in his maturity. His 2 year old Dam did a super job. She is out of our flush cow 814 and carries a lot of maternal power in her pedigree. Top EPDs: 6%CE, 4%BW, 7%WW, 8%YW 5%Milk.

Recommended for heifers. You'll want to keep his daughters! This moderate framed, well put together bull should sire easy fleshing progeny. He is smooth in his makeup, balanced in his frame and stands on a correct foot. 46Z is a deep broody cow, easy fleshing and feminine with a near perfect udder and foot. She produced 2018/2019 top end bulls with sons going to Murray Lake Farming, Dave Hanson and Howard Bock. GD 1R produced 13 calves with every daughter put into our herd. Top EPDs: 2%CE, 1%BW, 7%MCE

How To Read EPDs and Performance Data

EPD's are a measure of the expected differences in performance of a sire's/dam's progeny when compared to the average progeny of all sires/dams evaluated within the same breed. This prediction is based on actual performance, progeny performance and relatives' performance.

- EPDs can be used to compare bulls/cows from different herds.
- EPDs cannot be used to compare bulls/cows of different breeds.
- EPDs allow breeders to estimate a young animal's breeding value and that animal's value as a parent
- EPDs allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management
- EPDs are the best tool available to compare animals between herds, countries and year of birth
- EPDs help breeders make informed decisions regarding breeding stock selection by evaluating numerous traits, such as growth related traits (BW, WW, YW, Milk)

- **BIRTH WEIGHT (BW):** The birth weights of a bull's/cow's progeny when compared to the breed average, in pounds. Negative values indicate lighter BW while positive numbers indicate heavier.
- **WEANING WEIGHT (WW):** The adjusted weaning weights of a bull's/cow's progeny when compared to the breed average, in pounds.
- **YEARLING WEIGHT (YW):** The adjusted yearling weights of a bull's/cow's progeny when compared to the breed average, in pounds.
- **MILK:** A measure of the amount of pre-weaning performance gained by calves which can be attributed to the milking ability of a bull's/cow's daughters. The EPD is expressed in pounds of calf.
- **CALVING EASE DIRECT (CE) EPD:** The average difference in ease with which a sire's calves will be born when he is bred to first calf heifers.

- **MATERNAL CALVING EASE (MCE):** Is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

The Performance Information

As a further means to improve our herd we have submitted animal data to the Canadian Angus Performance, CAP program since it's initiation in the 70's.

- The test weights are for performance comparison WITHIN OUR HERD only. Consider and keep in mind that feed management differs with each breeder.

AOD	Actual BW	ADJ. 205	ADJ. 365	Oct 3 WW	Jan 2 YW	91 Day ADG
5	88	666	1111	800	1073	3.0

- **AOD:** Age of Dam at calf's birthdate
- **Actual BW:** Birth weight as actually weighed and recorded
- **ADJ 205:** Adjusted 205 Day [Weaning] Weight. Actual Weanling weights adjusted to 205 days of age - Dam's age considered in formula
- **ADJ 365:** Adjusted 365 Day [Yearling] Weight. Post-Weaning Average Daily Gain x 160 + Adjusted Weaning Weight
- **Oct 3 WW:** Date calves were weaned and weighed in fall of 2020
- **Jan 2 YW:** 2021 Date calves were weighed for yearling weight data submission
- **ADG:** Average daily gain from Sept 25, 2020 to Jan 4, 2021

National Cattle Evaluations [EPDs] are conducted monthly. EPDs represented are from February 2022

The Elite/Premier Program

Canadian Angus Elite Cow: has a minimum of five calves, four of which must be registered, to determine her regularity of calving and ability to consistently produce calves with a superior weaning weight year after year, display early puberty, breeding and early calving, followed by regularity of calving and high performance offspring.

Canadian Elite Cow Criteria

1. The cow must be enrolled in the Canadian Angus Performance Program.
2. The cow must have a calf with a 205-day weight recorded within the past 18 months.
3. The cow must have her first calf within 1000 days of her date of birth
4. The cow must maintain a regular calving interval, calving within 395 days consecutively
5. The cow must have four consecutive natural born calves that are registered and have a weaning weight ratio that averages over 105
6. The cow's calf must be in a contemporary group with no less than 10 herd mates to determine the weaning weight ratio
7. Once a cow is designated an Elite Cow, she is always an Elite Cow, however she will not be published in a year where she does not meet the above criteria

Premier Dam Criteria

As in 1 to 4 above

5. The cow must have four consecutive natural born calves that are registered
6. The cow's four calves must have Weaning Weight EPDs that are above breed average and have an accuracy of over 25%
7. The cow must have at least two registered grand calves
8. Once a cow is designated a Premier Cow, she is always an Premier Cow, however she will not be published in a year where she does not meet the above criteria.

2012

2021

For almost 30 years we have been shaping up an APHA/AQHA breeding herd and raising all-a-round, versatile, performance horses for the ranch and for the arena. The ranch raised weanlings, yearlings and riding horses are valued by their new owners and excel in all areas of the equine industry. We currently stand 3 stallions, who along with our mare's quality, are keeping the bone, size and disposition on what we offer you.

Commercial Open Replacement Heifers By Private Treaty At The Ranch

COMMERCIAL OPEN REPLACEMENT HEIFERS

Spring Offering of 40 Heifers ~ by Private Treaty

From the Delorme and Wardberg commercial herds is the 36th Annual offering of Black yearling heifers.

Straight Black Angus & Black Simmental/Angus

Contact us for the details

1948: the year Grandpa (Ole) Wardberg brought the first Black Angus females to this area. Four generations later and we still look across our fields at straight black angus cows. You'll have the opportunity to purchase from 40 home-grown Black replacement heifers.

Half of the commercial herd are bred Black Angus, the other half, Black Simmental from Darby and Sarah's registered Boundary herd. This will be our 36th annual offering of straight-bred Angus females with 2022 marking the 12th offering of the F1 crossbred Black Simmental/Angus Heifers.

Pictures and videos will be available on our web site at www.DelormeRanch.ca
