Heartland Livestock, Swift Current, SK

SWS SOUTHWEST SHOWCASE BULL SALE

WELCOME FROM BOHRSON MARKETING

The Southwest Showcase Simmental Bull Sale is now into its 15th year and these progressive programs have once again brought a great set of bulls for you, their valued customer to analyze. The people behind the bulls is what makes this sale special as they are close friends and likeminded in the way of working alongside their family operations to produce the best for you. You can invest in top cattle in this sale and we can assure you the people behind them will ensure you're a happy customer.

These 3 programs are family run operations with decades among decades of great breeding stock that are built for the real world. Located in southwestern Saskatchewan in cattle country, these cattle cover terrain that demands them to be strong footed, structurally sound and low maintenance. These are cattle that flat out produce with no pampering and the udder strength of the cowherds compliment the functionality of the genetics on offer. When you buy a bull in this sale, you do know there are programs with top quality cows behind them.

What a set of bulls we have for the 15th event as they are built for the most astute cattleman in both the commercial and purebred sectors. It is a pleasure to work alongside these programs and we encourage you to reach out to them to discuss the offering further. If you can't make it sale day, feel free to visit more with the Delorme, Scherger and Lundberg families or ourselves at BMS and we will certainly represent your needs in a professional manner and put your priorities first. See you in Swift Current on March 25 for a sale backed by strong bulls, progressive programs and great people that will give you first class hospitality and customer service.

Best regards,

SIGHT UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program and recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

100% GUARANTEE

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

HEALTH AND FERTILITY

All bulls will have a scrotal measurement and a vet examination done prior to the sale. All bulls over 12 months of age will also be semen tested; any bulls under 12 months of age will return to the seller's farm to be tested after the sale. These bulls will be delivered once a semen test has been passed. All bulls have been treated with Ivomec and have current vaccinations. Contact the breeder for specific herd health programs.

TERMS & CONDITIONS

Cattle will sell under the standard terms & conditions put forward from CSA & BMS. These are available upon request.

CATALOGUE DESIGN

The information printed has been supplied by the seller and believe to be accurate. Updated sheets and announcements from the block will take precedence over any incorrect printed material.

IN-HERD USE SEMEN RIGHTS

The Southwest Showcase consignors reserve the right to collect semen on any bull in the sale for their in-herd use only. Any questions please contact the consignors.

BULL DEVELOPMENT & DELIVERY

The Southwest Showcase consignors will keep bulls free of charge until May 1st, 2024. Buyers need to insure the bulls while being cared for by the consignors.

Option A

Bulls can be picked up at Heartland Livestock sale day and a \$200 discount will be deducted from the sale price

Option B

At the buyer's option and risk, the bulls can be returned to the consignor's farm and picked up anytime at the buyer's convenience.

Option C

Please make arrangements with the consignor if trucking is required.

EPD EXPLANATION

EPDs are "Expected Progeny Differences". They are a useful tool in selection. EPDs incorporate the individual animal with its averaged ancestry performance. EPDs do not compare across cattle breeds, they are individually based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull's progeny. Use them for guidance in the direction you want your herd to go. With the release of the BOLT system, data is transmitted to the evaluation weekly and new results are loaded weekly. This means that averages and percentiles are subject to ongoing change. Please use the CSA website for the most up to date and accurate averages and percentile rank information. EPDs for this catalogue were taken on February 10.

Welcome to the 15th annual Southwest Showcase Bull Sale. We want to express our most sincere gratitude and appreciation to all of our customers who have supported us over the years. We would not be here without you and we really value the friendships we have made over the years. With our girls now being the third generation in our family involved with Simmental cattle, we look forward to a bright future ahead.

Our 2024 bull sale offering is an exciting group of sound, functional bulls, all backed by strong maternal genetics. We feel that the strength of our cowherd is key to the future success of your herd sire. Every year we receive compliments on the soundness of our bulls and it is something we feel is very important. It is our focus that you are just as happy with the bull for years to come, as you are on sale day. Built to last!

We extend an invite to all who are able to attend on sale day, whether it is in person, online or on the phone. We would be happy to discuss the bulls with you prior to the sale at any time. The bulls are available at the ranch and then at sale facility prior to the sale for viewing. Feel free to contact us or connect with our great sales team to find the right bull to suit your operation. We look forward to seeing you on sale day.

1

LTS DEFIANCE 3079L

A massive, shapely and powerfully made son of Dynasty and one of the top producing cows in our program with an impressive production record. For many, this pedigree offers a complete and total outcross to other mainstream red genetics. The Erixon Lady 134E cow has amassed an impressive production record so far in her young career. She was purchased from the prestigious Cobra Event a few years ago as one of the high selling bred heifers. Her first two calves are impressive daughters in herd, one of which raised the Lot 17 bull also in the sale. Her third calf sold in the Jenna Flirt Event to Ashworth Farm & Ranch, and her fourth calf was a son that sold in last year's bull sale to Oh Kay Farms at Red Deer. An impressive herd sire candidate, backed by an elite cow and an outcross pedigree means the possibilities are endless for this bull. Significant opportunity here, take advantage.

A big time herd bull prospect here that we are proud to offer. Deep sided, long bodied and loose made with a dark red hair coat. Very sound and free in his movements, standing on a wide, correct base. These Bond sons are very consistent in their type, added dimension and muscle while still maintaining eye appeal. They are right for the times and what the industry demands. Performance, structural soundness and consistency are sure things with these brothers, take advantage!

Homo Polled

I could write a full page on the production history and how highly I think of the dam of this bull, and then write a second page on my thoughts on the bull himself, but I will try to keep it short. This bull's dam year after year raises the great ones every time. Just in the last few years here is her production record: Her '20 daughter was our top heifer calf, which later became our top bred heifer and is now one of our favourite young cows. Her '21 son was our leadoff and feature red bull, selling to Lazy S Bar M and ranks as one of the top bulls we have ever raised. Her '22 daughter was the leadoff and high selling heifer calf at Simmsational, purchased by Northern Lights Simmentals. Which brings us to her '23 son that from the very beginning as a young calf stood out from the rest. Depth, length, width and a huge hip. He travels with ease and a long easy stride. He is a herdbull in every sense of the word and truly what we strive for. Invest with confidence in this standout. **Hetero Polled**

A very complete Reddington son with lots of hair and natural thickness. Moderate at birth, strong at weaning and he's only become more impressive as he's matured. You will definitely notice him in the pen with his depth of body, full hip, wide top and excellent scrotal development. His dam is a beautiful Westcott x Shear Force daughter with an excellent udder. Both of those bulls have given us very productive females over the years, and I would look to keep all the daughters from this bull to build around. **Homo Polled**

A real attractive bull that is clean through the neck and shoulder, wide over the top and full through the hip. He has great presence and character, making him easy to find when you enter the pen. He moves out freely with a long full stride, attributes we feel are very important. Combine this with him being out a very good uddered and appealing cow. She is a Westcott daughter, that always seem to raise calves with extra shape and muscle to them every time. A well rounded herd sire prospect that will enhance any program.

A very complete, wide topped bull with lots of hair and a square hip. His dam is a very strong producer and from one of our strongest cow families. Deep bodied, broody cows with tons of rib shape and excellent udders. The grand dam was a cow that we flushed extensively to further enhance her influence on our program. She produced here naturally until the age of 14 and all of her daughters have made phenomenal females. All of this maternal strength back this bull, combined by CE & BW numbers in the top 20% of the breed make this bull an appealing choice. **Homo Polled**

7

LTS BOND 3067L

Here is an early maturing, free moving bull with lots of natural thickness and testicle development. Sired by Bond, a sire that has proven to not only be easy calving but a bull that adds a lot of substance to his calves. We have really been impressed with the whole sire group of Bond calves, both bulls and females. We love the easy keeping look that they have, and they are excellent footed cattle. This bull has a real presence to him and will be easy to find sale day.

LTS LANDMARK 3097L

A powerfully constructed bull with great length, depth, rib shape and balance. He's very sound and free on the move, while standing on a wide, correct base. His sire Landmark was the high selling bull from Maxwells a few years ago, and has since been making a big impact in all programs he has been used in. Maxwells sold a Landmark son for \$140,000 last spring, and the Deeg family have sold numerous high sellers as well. We were fortunate enough to purchase a semen package from Deegs and have been using it on some of our top females. Not only have the calves been impressive, but Landmark offers fresh genetics that allow a ton of mating flexibility to most every program. This bull's dam further enhances the package as she is deep bodied and broody, with lots of rib shape and a very nice udder. Invest with confidence here, as he is going to make an awesome herd sire. **Homo Polled**

A calving ease prospect here that started out with just a 78 lb birthweight and has really matured into a strong herd sire prospect. His sire, Razor, is a bull we have used on heifers the last three years and we can say he is the easiest calving bull we have ever used. He consistently sires low birthweight calves that are born very easy with a ton of vigor. This bull has shown to be a real curve bender, as he stands right up with the high performance bulls in the pen. This performance corelates well with his epd profile, as he is highly ranked all the way from CE and BW, through performance and maternal. His dam is a first calf heifer that did a great job, and stems from one of our strongest cow families. A calving ease bull that offers so much more.

Dark red, lots of hair, great length and balanced. Out of an excellent dark red cow with an ideal udder. The Bootlegger daughters make very nice females and his dam is no exception. This bull had a certain look about him from a young age and was always getting noticed right from the start. He is very clean and smooth through the front end, with top 20% CE and 25% BW numbers, while still having good thickness throughout. I believe the daughters of the bull will be very strong, as both sides of the pedigree have worked very well for us.

Fenway was purchased last spring as the lead off bull from Westway Farms. We set out to find one of the very best Betts sons on offer last year, and when we found Fenway we knew he was the one we would pursue. We think that he is not only extremely impressive in type, but one we also feel will complement our program very well. From his big hip, outstanding natural thickness and eye appeal, to the way he travels with ease and is very sound on all corners. He is a herd bull in every sense of the word and we eagerly await his calves this spring.

Slash is a bull that we feel has taken our black program to the next level. The quality and consistency he has produced continues to impress us. He adds awesome hair, eye appeal, natural thickness and length to his calves. We just calved out the first group of Slash daughters and we are very pleased with them, broody females with excellent udders and maternal traits. The Slash progeny are all stamped the same and you can certainly pick them out for their appealing traits. His sons will surely pass these on to the next generation, invest in one to carry your program forward!

A powerful bull with great length, performance and lots of hair. He ranks in the top 30% for WW and 20% YW epds and will be sure to add performance to his calves. Combine this with CE top 30%, and strong maternal numbers make for a very well-rounded individual. His dam is a powerful cow that always adds extra performance to her calves and you can expect that here from this son. The easiest way to add pounds to your calf crop is to add length and this bull will do that no doubt.

An eye appealing, moderate birth weight bull with great hair and a lot of maternal strength in his background. Wide topped, with lots of muscle while maintaining a smooth shoulder and attractive head. We are very impressed with the Slash calves and the job that he as done. He sires extra muscle and depth, while still maintaining eye appeal. This bull's dam is an excellent uddered Enhance female from a productive cow family. A well rounded bull that will be a strong addition to any program.

A long bodied, well balanced, powerful bull that will command your attention. Excellent performance, hair, rib shape and an easy moving stride. His dam displays excellent capacity and volume, while still being feminine and strong uddered. This bull really stood out this summer on pasture, and made a really impressive pair standing beside his dam. If you are looking for a performance bull to increase your weaning weights and overall substance, this is the bull for you.
Homo Polled/Homo Black

16

LTS WALKS ALONE 3055L

A feature bull that offers a light birth weight, balance, length and character in a smooth and complete package. His sire Walk This Way has written his own chapter in the breed with a long list of accomplishments which includes siring some of the most impressive and productive cattle in all the land. His dam is a beautiful Lotto daughter with an excellent udder, depth of body and eye appeal. We think very highly of the Lotto daughters as they are some of our most consistent cows. Judging by his pedigree, numbers and phenotype, the future holds great things for the herd sire.

LTS SLEDGE 3086L

This is what it's all about in our opinion. Tremendous thickness throughout, great hair, large testicles, standing on sound and wide base. These are traits that his sire has become known for in our program. This bull's dam is a model female with a picture perfect udder and comes from one of our very best cow families. His epd profile is also impressive, showing WW and YW numbers in the top 20%, while still maintaining strong calving ease and maternal numbers. This is a bull that ties it all together, both in genetics and phenotype. He has tremendous potential and will have a big impact in the future.

This March born bull is the youngest in the pen, but you would never know it. He has a ton of performance and power that will definitely produce an impressive calf crop. His numbers support this as well, as he ranks in the top 20% of the breed for both WW and YW EPDs. He will also be one of the highest WPDA bulls in the sale. His dam is a really good uddered Cobra daughter with extra performance as well. Look for this bull to have a big impact, as you will notice the extra performance in his first calf crop.

A stout, heavy haired bull that will add thickness and dimension to your next calf crop. His sire has done exactly that, added muscle and that easy keeping look. We just calved out the first group of Slash daughters and we are very pleased with them, broody females with excellent udders. The Slash progeny are all stamped the same and you can certainly pick them out for their appealing traits. His sons will surely pass these on to the next generation, invest in one to carry your program forward!

Homo Polled

21

LTS SLASH 3105L

A bull that started out with just a 73 lb birthweight and has developed into an impressive future herd sire. He has a ton of hip, rib shape and overall thickness, while still having lots of eye appeal and staying very balanced. His dam is a maternal sister to the Lot 22 bull in the sale that we think very highly of as well, and both bulls pattern very similar. The Opal cow family is a well-known one within the breed and it is easy to see why with the consistency and quality shown here. If you place a high value on proven cow families, you will have this bull marked very high on sale day.

LTS STANDOUT 3083L

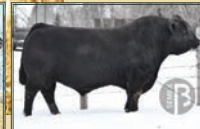

A bull that is ideal in every sense of the word. Tremendous hair, rib shape and overall thickness, he gets out and moves with such ease. You will have to put on a pile of miles this spring to find a bull that strides out the way he does and has the presence this bull possesses. His dam really knows how to produce at an elite level, with this being the third year in a row she has put a top end son in the bull sale, with maternal brothers selling to Cypress Colony at Maple Creek, and the Crandall Ranch in Manitoba. She has an awesome udder, great feet and has quickly become a cow we rely on to produce at a high level every single year. Buy with confidence, this will become a top end herd sire that will influence your program for years to come.

Here we are at our 15th Annual bull sale and still going strong. At our first sale, we had six consignors and I remember all of us being nervous wrecks wondering if it was going to be a flop or not! Well, the sale barn was packed to the rafters and we had a barn burner of a sale. Our success is due to our many repeat buyers who have supported us through blizzards, severe droughts, Covid, and many other ups and downs.

Our bulls will be hand fed Bullseye ration twice per day, as well as chopped crested wheat hay. They are fed to be grown out, not fattened. Only one of our bulls will be 12 months of age when we semen test them, but they will be done to ensure that our vet feels confident that they are sound and will pass by 13 months. We have done this for years and have had virtually no problems.

Once again, thank you for your continued support and get ready to enjoy the good years ahead in the cattle business!

- Mr. Power & Performance
 - Lots of frame and growth in this bull
 - EPD's top 10% WW and top 10% YW
 - He would really put some pop in a herd of red cows
 - Milk EPD is also really good for a red bull
 - A really strong cow family behind this guy
- Homozygous polled test pending**

REFERENCE SIRE: KWA GOVERNOR 25G

- High selling red bull out of the Ashworth Sale 2020
- At 5 years of age, he is still very athletic and his feet are perfect!
- We calved his first daughters in Spring 2023 and are extremely happy. They are powerful, thick bodied females that are very attractive.
- They milk very well and they all raised big calves under very trying drought conditions
- His calving numbers are not at all accurate as Governor is a very easy calving bull
- They progeny are real world cattle, the kind ranchers love to raise

- Estate is the \$70,000 high selling bull that we purchased with Ashworth's
- He was an embryo calf with a little more BW that is reflected in his calving EPD's, but we have found that is not the case. His calves are as long as a well rope when they are born and come easily and very vigorous.
- His first daughters have calved at Ashworth's and they are very pleased. Lots of milk and mothering instinct.
- Try one of these Estate bulls on your black cows and bank the dividends you will reap

Darby: 306.662.7993

boundaryranch@sasktel.net
www.boundaryranch.ca

On behalf of the Delorme Family, welcome to the 15th annual Southwest Showcase Bull Sale. Thanks to the bidders, buyers, family, and friends who have supported our program. Your investment in our genetics means we get to do what we love every day, and we are beyond thankful for that.

This year's offering consists of equal parts calving ease, performance driven, and highly maternally bred cattle. Some with a combination of all 3. There is something for everyone. The bulls started off a bit lighter this year due to the drought, but they have mostly made up the difference already and we are very impressed with the level of natural muscling and length in these bulls. Pounds pay and these bulls should sire that with ease.

We encourage anyone interested in the bulls to come visit the Ranch, where we will be happy to go through the bulls and their dams with you. If you can't come to the sale or the Ranch, feel free to call us and we will go over the offering with you.

Visit our website WWW.BOUNDARYRANCH.CA. Videos, weights, scrotals, sire & dam pictures, and a production record for each cow can be found on the site. All our bulls are Homozygous Polled and Color tested and almost all results are printed in this catalog. We look forward to visiting with you all sale day.

High selling bull out of Wheatland's Sale for \$110,000. Sound, long bodied, moderate framed and moved like a cat. Dam is gorgeous and still has a very nice udder and good feet. His sons are moderate framed, long bodied, and wide topped. We lost Express mid breeding season last spring, but his legacy will be his daughters – big volume, sound females, with impeccable udder structure.
HOMO POLLED. Sire of Lots 51 & 64.

40

BOUNDARY SULTAN 165L

Deep bodied, good haired, balanced in his make-up, this bull has the look and has been one of the favorites since he was a calf. His dam is a no miss cow in her prime and she looks the part – she just doesn't like pictures. Ask to see her in person or on video and you'll get the gist! She's had 2 sons and 1 daughter that have been members of our show team. A son to Bonchuk Farms and a stunning, sweet made, 2-year-old in herd that the kids call "Fancy", you can guess why. 232F has a maternal sister with a son in the sale Lot 121L. Sultan ranked 2nd of the red bulls for WW, 3rd for WADG & WWPDA, 5th for AWW & YWPDA and has EPDs Top 15%YW, 20%WW & STAY. Top of the pen bull out of a top of the herd cow.

Dam:
 Boundary Red Tango 34H

HEIFER BULL. A deep, heavy muscled, "Formidable" son with a small attractive skull. His dam is a stylish, clean made, "Cash" daughter, that is a cookie cutter of her own big volume dam. 69L has a gestation of 283 days and a birth weight of only 71 lbs. Dam's ave. gestation on 3 calves is only 275 days and birth weight 64 lbs, so we feel he should work on well grown heifers. He has an excellent EPD profile, being above average for all EPDs. A bull that will work well in the heifer pen or on cows. **HOMO POLLED**

44

BOUNDARY FORMIDIBLE 185L

From nose to tail to foot, there isn't much we'd change about this bull. 185L is exactly the type of progeny we were aspiring to produce when we decided to use Formidable 52f in our program. 63D is an excellent cow whose production record speaks for itself. A son to Springhill Ranching that was also a member of our show team, and 2 beautiful Tycoon daughters in herd. 63D was Champion Cow at SCPS in 2016, 2019, & 2022. Grandam 396B was Champion with 63D at side and Formidable 185L was Champion Bull Calf this year, so phenotype is not a problem in this family! He ranked 1st of the red bulls for YW, AYW, YADG, YWPDA, 3rd for WW, 4th for WADG, 5th for WWPDA and has EPDs Top 1%YW, 2%WW, 10%MWWT. Performance bull with a line of attractive, highly productive cows backing him.

Another great example of how Formidable works. 188L is bigger framed, long bodied, big topped, and heavy muscled. His attractive square uddered dam has one daughter in herd. Grandam is so wide, she doesn't fit through our chute system, no joke. 188L has great spread from birth to yearling with a birth weight of only 88 lbs but ending as one of our heavier bulls. He ranked 5th of the red bulls for YADG and has excellent performance EPDs Top 1%YW, 4%WW. **HOMO POLLED**

Dam:
Boundary Kendra 56G

46

BOUNDARY WALK THE LINE 17L

Super long bodied, clean made with neck extension, a big hip and the sweet disposition that is typical of the Reggie cow family. 17L was a member of our show string last fall. His dam is a tidy uddered ET daughter of the matriarch Reggie 110R, who maintained her perfect udder and excellent feet to the ripe old age of 15, when arthritis got the better of her. Her impact can be seen throughout this catalog. 17L has excellent numbers, ranking 4th of the red bulls for WW, 5th for YW, has a gestation 282 days and EPDs Top 5%YW, 10%WW & MWWT, 20%MCE & STAY. 17L should add frame and performance without sacrificing the maternal qualities his family is known for. **HOMO POLLED**

51

BOUNDARY EXPRESS 242L

HEIFER BULL. Smooth, sound, long, heavy muscled, and an attractive skull. Dam is a really great cow with a terrible picture. She was Champion Cow with Bull Calf 242L at side last fall at the SCPS. 242L has a gestation of only 279 days, 73 lbs birth weight, and EPDs Top 3%BW, 10%CE, 20%MCE. Dam has an ave. BW of 78 lbs on 3 calves. She has a mat. sister with a son in the sale Lot 52 that will also work well on heifers. Grandam is a moderate framed, heavy milking, tanky cow. Great grandam is Isabella's 1st 4H heifer, the gorgeous and productive 156D. With Express, Cash, and Renegade in his pedigree, not to mention his phenotype and cow family, 242L should calve easy, but also make progeny worth keeping. 242L is a bull that we would be excited to use on our own heifers! **HOMO POLLED**

2nd youngest bull in our offering and a good example of why we're so excited about Great Western. Beefy best describes this handsome fella. His Dam is a typical, super long bodied, excellent footed, sound Marigold cow. She has a son by Motley that walks our commercial herd, and a daughter with a son in the sale Lot 56. 235L ranked 1st of the red bulls for WWPDA, 2nd for WADG & YWPDA, 3rd for AWW, 5th for AYW and has EPDs Top 20%DOC, 25%WW. Young bull with loads of potential. **HOMO POLLED**

58

BOUNDARY COMMISSIONER 70L

Bull that was destined for our own herd. We're sick of explaining why we were keeping this handsome dude for ourselves, so here he is, on the open market. As cool, big performance, and awesome in every way that we can make one. A full sib to Storm 13G – Champion Heifer Calf SCPS and member of our Champion Pen of Heifers MHPS. We were hoping for another daughter with this mating but can't argue with the results. Dam is a powerhouse, awesome producer, grandam is none other than 11X. At 14, 11X looks almost the same as that supplement picture taken of her at 3. 70L ranked 1st of the black bulls for WW, AWW, WADG, WWPDA, & YWPDA, 2nd for YW, and 3rd for AYW and EPDs Top 4%YW, 10%WW. Herd changer.

Smooth shouldered, deep bodied, good disposition. 29L was our alternate for the black pen of MHPS bulls. Dam is a big volume, nice uddered female. She has a sister with a son in the sale Lot 64, grandam has sons 12L & 13L. 29L has a gestation of only 279 days and birth weight of 85 lbs. Ave. gestation for his dam on 4 calves is 279 days and BW of 75 lbs! EPDs top 2% DOC, 10%CE & BW. 29L should work on well grown heifers and/or cows. **HOMO POLLED / HETERO BLACK**

Twin. A little more stylish than his brother with a tad less performance, but still way above average. 13L was raised by a 2-year-old Angus heifer. His dam has an ave. gest. of 280 days and ave. BW of 73 lbs on 5 calves. 13L indexed 4th of the black bulls for YADG, so he's trying to catch up with his brother. 13L has EPDs top 15% YW, 20% WW.

Long, clean, sound, good haired, Express son. We lost Express last breeding season, but his daughters will have a lasting positive impact on our herd. Dam is a tidy uddered Enticer daughter. She has a sister with a son in the sale Lot 61. 41H's first son sold to Sawki Ranch Ltd. 230L had a low gestation of 282 days. Despite his age, 230L ranked 4th of the black bulls for AWW, WWPDA, 5th for WADG. **HOMO POLLED / HOMO BLACK**

65

BOUNDARY 56U LINER 152L

With his smooth gait, bold sweeping rib cage, deep, thick hip, and easy-going attitude, this 56U son is a head turner. He was a member of our show string last fall. Dam is top producing, powerful, super sound, and well put together, with lots of milk. She's had sons sell to Westway Farms, Sunny Valley Simmentals, and a big beautiful "Motley" 2-year-old in herd. 152L ranked 1st of the black bulls for YADG, 2nd for AYW, 4th for WADG & YWPDA, 5th for WWPDA and has EPDs Top 1% STAY, 10%YW, 15% DOC, 20% WW & MWWT so 152L is a big-time performance bull. Sired by 56U and out of the great 248D cow, this bull has endless potential.

Possesses tremendous length of body, depth of rib, bone, and an awesome hair coat. Dam is a super thick, big volume, attractive cow that is a head turner. Grandam and great grandam had many high selling, leadoff bulls in this sale. Boomshakalaka in known for his top-end, banner winning females, so this cross could be very exciting. EPD's top 15% WW.

HEIFER BULL. Smooth flat shoulder, correct in his design, fantastic hair, and sweet disposition. Dam is a broody "Sweet Meat" daughter who had another son used as a heifer bull sell to L.P Farms Ltd. Dam has a maternal sister with a feature son in the sale Lot 40. 121L has a gestation 279 days and birth weight of 88 lbs out of a mature cow, whose ave. BW on 4 calves is 86 lbs.

HOMO POLLED / HETERO BLACK

70

BOUNDARY REGINALD 8L

Big and stretchy, awesome haired. Length to burn. A son of the kids Reggie 143F and our purebred Black Angus walking herdsire Wiwa Creek Bull 619'16. The cross of the elite Reggie 143F Simmental cow and our big power Angus bull has resulted in a very interesting breeding piece. His dam is a tanky, beautiful uddered, heavy milking, clean made, "Renegade" daughter. She has 2 daughters with sons in the sale Lot 51 & 52. Lot 51 & his dam were Champion Cow with Bull Calf SCPS last fall. Grandam 156D has won more shows than we can list here. 8L has huge performance numbers but also a low gestation of only 280 days. 8L is a halfblood bull that will add performance and increase the maternal attributes of any herd..
